FINANCIAL POSITION

As of September 30, 2017, FIBRA Prologis' liquidity was Ps. 3.6 billion (US\$199.0 million), which included Ps. 3.3 billion (US\$180.0 million) of available capacity on its unsecured credit facility and Ps. 348.4 million (US\$19.1 million) of unrestricted cash. This liquidity does not include a Ps. 2.7 billion (US\$150.0 million) accordion feature.

During the quarter, FIBRA Prologis fully repaid one secured debt facility totaling US\$37.5 million, that was scheduled to mature this year, and with a debt cost of 6.9 percent. The secured debt facility was repaid with borrowings under the unsecured credit facility at par,

decreasing the overall cost of debt by approximately 10 basis points to 3.9 percent quarter-over-quarter.

Also during the quarter, FIBRA Prologis completed two transactions with a syndicate of domestic and international banks for a US\$150.0 million unsecured term loan and a new US\$325.0 million unsecured credit facility with a US\$150.0 million accordion feature, that can be drawn from either product. Both financings have options which extend maturity to 2022. The debt cost of the term loan and new credit facility are approximately 3.3 percent and 3.4 percent, respectively. Proceeds were used to repay the former unsecured credit facility, which was scheduled to mature in 2019.

"Our 2017 refinancing strategy was completed in the third quarter," said Jorge Girault, senior vice president, Finance, Prologis Property Mexico. "We have significantly reduced our debt costs while keeping leverage levels steady. Our balance sheet remains a key strength for the company, providing us with enhanced liquidity and flexibility."

GUIDANCE UPDATE

"We anticipate continued strength in rent change on lease expiration, as well as elevated average occupancy, which will drive our same store performance. As a result, we are increasing our same store NOI guidance," added Girault. "Due to an unexpected governmental issue at a property, we are decreasing our acquisitions guidance for 2017."
