California Senate Honors STWA With Resolution

Company's New Corporate Offices in Santa Barbara, CA to Host Reception and Ceremony on Saturday, May 9th

MORGAN HILL, CA--(Marketwire - April 27, 2009) -[Save the World Air, Inc.](#) (OTCBB: ZERO), an innovative pioneer in the clean technology industry focused on energy efficiency and air quality issues, announced today that it is being acknowledged by the Honorable Tony Strickland of the 19th Senatorial District, California, with an official Resolution at its offices in Santa Barbara, CA on Saturday, May 9th.

The Resolution is an official document acknowledging STWA's past and future contributions to the local and State economy as an employer and manufacturer based in the State of California. The Resolution exemplifies the accomplishments of STWA and thanks the Company and its staff for its service to the community and the State of California.

Cecil Bond Kyte, Chairman and CEO of Save The World Air, Inc. commented, "We are honored to be recognized by the Honorable Tony Strickland and the 19th Senatorial District. Our recent relocation of our corporate offices from Los Angeles to Santa Barbara was a strategic move that we feel fits well with our plans for future growth." Kyte added, "I am a resident of Santa Barbara, as are a few of our staff and consultants. It's a fantastic community that we are pleased to be a part of."

About Save The World Air, Inc.

Save The World Air, Inc. develops and licenses patented and patent pending flux field pollution control and performance improvement technologies, including the ELEKTRA, ZEFS and MKIV, which have been scientifically tested and proven to significantly reduce harmful exhaust emissions, improve performance and enhance fuel economy. The products have been engineered to serve as either stand alone pollution control systems or can be used (in conjunction with catalytic converters) to create a more effective total pollution control system that not only reduces harmful emissions, but also decreases greenhouse gases, improves fuel efficiency and boosts performance.
