For further information regarding Adjusted EBITDA, including a reconciliation of Adjusted EBITDA to net loss, see non-GAAP Financial Measures below.

"We continue to address the changing market dynamics and continue to take steps to position the Company for long-term profitable growth," stated Shane Evangelist.

Q2 2012 Financial Highlights

- Net sales decreased \$3.5 million, or 4.2%, for Q2 2012 compared to Q2 2011. Our Q2 2012 net sales consisted of online sales, representing 92.5% of the total (compared to 94.4% in Q2 2011) and offline sales, representing 7.5% of the total (compared to 5.6% in Q2 2011). The net sales decrease was primarily due to a decline of \$4.9 million, or 6.1%, in online sales offset by a \$1.3 million, or 28.1% increase in offline sales. Online sales decreased primarily due to a 6% reduction in e-commerce unique visitors and a decline in average order value by 7%, partially offset by a 1% improvement in conversion and an increase of 1% in revenue capture. Our offline sales, which consist of our Kool-Vue™ and wholesale operations, continued to show solid growth.
- Gross margin declined 350 basis points to 30.2% of net sales during Q2 2012 compared to 33.7% in Q2 2011. Gross margin was unfavorably impacted by increased competition in the marketplace and higher freight expenses.
- Marketing expense was \$13.0 million, or 16.1%, of net sales in Q2 2012, down from \$14.4 million, or 17.0%, of net sales in Q2 2011. Online advertising expense, which includes catalog costs, was \$5.2 million, or 7.0%, of online sales for Q2 2012, compared to \$7.6 million, or 9.6%, of online sales for Q2 2011. Marketing expense, excluding online advertising, was \$7.7 million, or 9.6%, of net sales for Q2 2012, compared to \$6.8 million, or 8.0%, of net sales for Q2 2011. Online advertising expense decreased primarily due to reduced catalog advertising costs of \$1.3 million,

and our non-catalog online advertising expenses also decreased by \$1.1 million due to lower sales volume. Marketing expenses, excluding online advertising, increased primarily due to higher amortization costs related to software deployments.

- General and administrative expense was \$4.7 million, or 5.8%, of net sales for Q2 2012, down from \$8.4 million, or 10.0%, of net sales for Q2 2011. The decrease of \$3.7 million, or 43.9%, for Q2 2012 compared to Q2 2011, was primarily due to \$1.5 million in restructuring costs from Q2 2011 compared to none in Q2 2012, and lower depreciation and amortization expense, payroll expenses and share-based compensation in Q2 2012.
- Fulfillment expense was \$5.6 million, or 7.0%, of net sales in Q2 2012, up from \$4.6 million, or 5.4%, of net sales in Q2 2011. The increase of \$1.0 million, or 22.8%, for Q2 2012 compared to Q2 2011, was primarily due to higher depreciation and amortization expense from software deployments.
- Technology expense was \$1.7 million, or 2.1%, of net sales in Q2 2012, down from \$1.9 million, or 2.3%, of net sales in Q2 2011. The decrease of \$0.2 million, or 11.3%, for Q2 2012 compared to Q2 2011, was primarily due to lower telephone, consulting and computer support expenses.
- Capital expenditures for Q2 2012 were \$3.0 million.

Cash and cash equivalents and investments were \$1.5 million and total debt was \$13.1 million at June 30, 2012. The Company's investments are comprised of high-grade mutual funds that primarily hold debt securities. Cash and cash equivalents and investments decreased by \$9.5 million from the previous quarter ended March 31, 2012, primarily due to net payment of debt of \$5.0 million, capital expenditures of \$3.0 million and negative cash flows from other working capital sources partially offset by the net proceeds from sales of our investments.

On April 26, 2012, the Company entered into a new credit agreement with JPMorgan Chase, N.A., which provides for a revolving commitment in an aggregate principal amount of up to \$40 million with an option to increase the line up to \$60 million. The credit agreement is subject to a borrowing base derived from certain receivables, inventory, property and pledged cash. The credit agreement obligations will mature on April 26, 2017. The Company used the proceeds of the loans borrowed to repay in full its existing credit facility with Silicon Valley Bank. The new arrangement has increased our available liquidity, currently requires no principal payments until maturity, may be prepaid at any time without penalty and includes a less restrictive fixed charge coverage ratio through the term. We previously reported the new credit agreement in our Current Report on Form 8-K filing with the Securities and Exchange Commission on April 30, 2012.

Non-GAAP Financial Measures

Regulation G, "*Conditions for Use of Non-GAAP Financial Measures*" and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest income (expense), net; (b) income tax provision (benefit); (c) amortization of intangibles and impairment loss; (d) depreciation and amortization; (e) share-based compensation expense; (f) debt extinguishment loss; (g) legal cost to enforce intellectual property rights and (h) restructuring costs related to acquisitions.

The Company believes that this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measure reflect an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as a measure of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of items not directly resulting from core operations. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; for evaluating the effectiveness of operational strategies; and for evaluating the Company's capacity to fund capital expenditures and expand its business. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the overall operating performance of companies in our industry. Additionally, lenders or potential lenders use Adjusted EBITDA to evaluate the Company's ability to repay loans.

This non-GAAP financial measure is used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.
