Smartkem, Inc. announces reverse split of common stock to support continued Nasdaq listing

WILMINGTON, Del., Aug. 19, 2026 (GLOBE NEWSWIRE) -- Smartkem, Inc. (Nasdaq: SMTK) ("Smartkem" or the "Company") today announced that its Board of Directors has approved a reverse stock split of the Company's outstanding common stock at a ratio of 1-for-50, following authorization by shareholders at the company's Annual Meeting of Shareholders held June 23, 2026.

The reverse stock split will become effective on August 20, 2026 at 5:00 p.m. Eastern Time and Smartkem's common stock will begin trading on a split-adjusted basis on the Nasdaq Capital Market at the opening of trading on August 21, 2026 under the existing ticker symbol "SMTK."

The reverse stock split is intended to increase the per share trading price of Smartkem's common stock to satisfy the minimum bid price requirement for continued listing on the Nasdaq Capital Market.

As a result of the reverse stock split, every 50 shares of Smartkem common stock issued and outstanding will automatically be combined into one share of common stock. The reverse stock split will reduce the number of outstanding shares proportionally, while the number of authorized shares of common stock will not change. Fractional shares will not be issued. Shareholders who would be entitled to receive fractional shares will instead be entitled to the rounding up of their fractional share to the nearest whole share.

The reverse stock split will affect all shareholders uniformly and will not alter any shareholder's proportional ownership interest in the company, except for adjustments resulting from the treatment of fractional shares. The reverse stock split will also proportionately adjust the number of shares underlying the company's outstanding equity awards, warrants, and other equity-based securities, as well as the applicable exercise or conversion prices.

Equiniti is serving as the exchange agent for the reverse stock split. Shareholders holding shares electronically or in book-entry form do not need to take any action. Shareholders holding certificated shares will receive instructions from Equiniti regarding the exchange of their stock certificates. Additional information regarding the reverse stock split can be found in Smartkem's definitive proxy statement filed with the Securities and Exchange Commission on May 18, 2026.
