SAN JOSE, Calif., Aug. 8, 2023 /PRNewswire/ -- Quantum Corporation (Nasdaq: QMCO) announced today financial results for its fiscal first quarter ended June 30, 2023.

#### First Quarter Fiscal 2024 Financial Summary

- Revenue was \$91.8 million, a decrease of 5% year-over-year
- GAAP gross margin was 38.1%, and non-GAAP gross margin expanded to 38.3%
- Subscription ARR was up 78% year-over-year at \$14.6 million
- GAAP net loss was \$10.6 million, or (\$0.11) per share
- Non-GAAP adjusted net loss was \$4.8 million, or (\$0.05) per share
- Adjusted EBITDA increased to \$0.8 million

Commenting on the results, Jamie Lerner, Quantum's Chairman and CEO, stated, "First quarter revenue was impacted by booking delays; an unanticipated drop in Device and Media sales late in the quarter; and higher than anticipated weakness in the hyperscale vertical. Our subscription ARR in the quarter increased 78% year-over-year and 9% sequentially as we continue to advance recurring software subscriptions across our customer base.

"Despite the overall decline in quarterly revenue, our global efficiency plan and cost reduction initiatives helped to deliver a 790-basis point sequential improvement in gross margin and a reduction in operating expenses, which together contributed to both sequential and year over year increase in adjusted EBITDA.

"Subsequent to quarter-end, our largest hyperscale customer paused orders due to excess capacity driven by broader macro weakness. This development was unexpected and will have a meaningful impact on our second quarter and full year outlook and further

punctuates the importance of transitioning our business to a more stable, subscription-based business model to moderate quarterly volatility.

"Our entire team is fully focused on executing with a high sense of urgency to secure and convert our expanding pipeline of opportunities into customers. This includes aggressively scaling our non-hyperscale businesses and ramping our full portfolio of end-to-end solutions. We are also further tightening spending across the organization, while maintaining our investment in key sales, marketing, and product development initiatives."

#### First Quarter Fiscal 2024 vs. Prior Year

Revenue for the first quarter fiscal 2024 was \$91.8 million, compared to \$97.1 million in the prior year first quarter, primarily reflecting a decrease in Primary Storage Systems, Device and Media as well as lower Services business, partially offset by growth in hyperscale Secondary Storage Systems. GAAP gross profit in the first quarter of fiscal 2024 was \$34.9 million, or 38.1% of revenue, compared to \$34.0 million, or 35.1% of revenue, in the first quarter of fiscal 2023. Non-GAAP gross profit in the first quarter 2024 was \$35.2 million, or 38.3% of revenue, compared to \$34.5 million, or 35.5% of revenue, in the first quarter of fiscal 2023.

Total GAAP operating expenses in the first quarter of fiscal 2024 were \$40.8 million, or 44% of revenue, compared to \$41.1 million, or 42% of revenue, in the prior year. Selling, general and administrative expenses were \$28.5 million in the quarter, compared to \$28.3 million in the prior year. Research and development expenses were \$10.9 million in the first quarter of fiscal 2024, compared to \$12.1 million in the prior year. Non-GAAP operating expenses in the first quarter of 2024 decreased to \$35.5 million from \$36.3 million in the first quarter of fiscal 2023.

GAAP net loss in the first quarter of fiscal 2024 was \$10.6 million, or (\$0.11) per share, compared to a net loss of \$10.6 million, or (\$0.13) per share, in the first fiscal quarter 2023. Excluding acquisition-related intangible asset costs and stock-based compensation, non-GAAP adjusted net loss in the first fiscal quarter of 2024 was \$4.8 million, or (\$0.05) per share, compared to adjusted net loss of \$3.6 million, or (\$0.04) per share, in the prior year first quarter.

Adjusted EBITDA in the first quarter of fiscal 2024 improved to \$0.8 million, compared to \$0.3 million in the first quarter of fiscal 2023, reflecting the initial benefits from the Company's recently implemented global efficiency plan and ongoing cost reduction initiatives.

For a reconciliation of GAAP to non-GAAP financial results, please see the financial reconciliation tables below.

#### Liquidity and Debt (as of June 30, 2023)

- Cash, cash equivalents and restricted cash were \$25.7 million, compared to \$26.8 million as of June 30, 2022.
- Total interest expense for the first quarter was \$3.2 million compared to \$2.1 million for the same period a year ago.
- Outstanding term loan debt was \$88.6 million, compared to \$78.4 million as of June

30, 2022. Outstanding borrowings on the revolving credit facility was \$17.8 million, compared to \$17.3 million as of June 30, 2022.

#### Guidance

For the second fiscal quarter of 2024, the Company now expects the following guidance:

- Revenues of \$80.0 million, plus or minus \$3.0 million
- Non-GAAP gross margin of approximately 42%
- Non-GAAP adjusted net loss per share of (\$0.04), plus or minus \$0.02
- Adjusted EBITDA of approximately \$2.0 million

For the full fiscal year 2024, the Company expect the following outlook:

- Revenues of \$360.0 million, plus or minus \$10.0 million
- Non-GAAP gross margin of approximately 42%
- Non-GAAP adjusted net loss per share of (\$0.06), plus or minus \$0.02
- Adjusted EBITDA of approximately \$17.0 million, plus or minus \$3 million

Commenting on the guidance, CFO Ken Gianella stated, "Not reflected in our original full year outlook was more pronounced declines in both our hyperscale and media businesses as well as the potential impact of a prolonged entertainment work stoppage. Even with these extraordinary revenue headwinds, our total gross margins are improving with the rotation to a higher revenue contribution from Primary Storage and non-hyperscale Secondary Storage customers. Additionally, we are refining our full year adjusted EBITDA outlook from our prior forecast of at least \$20 million, which despite the decline in revenue, reflects the meaningful benefits from our global efficiency plan, including disciplined manufacturing and service operations, as well as strong cost and discretionary spending controls."

This full year outlook assumes an effective annual tax rate of 25%; Non-GAAP adjusted net loss per share assumes an average basic share count of approximately 93.9 million in the fiscal second quarter of 2024 and 94.6 million for fiscal 2024.

#### **NON-GAAP FINANCIAL MEASURES**

To provide investors with additional information regarding our financial results, we have presented certain non-GAAP financial measures in this press release, including adjusted EBITDA, non-GAAP adjusted net loss, non-GAAP adjusted net loss per share, non-GAAP operating expenses, non-GAAP gross profit and non-GAAP gross margin.

Adjusted EBITDA is a non-GAAP financial measure defined by us as net loss before interest expense, net, provision for income taxes, depreciation and amortization expense, stock-based compensation expense, restructuring charges, and other non-recurring expenses.

"GAAP net loss" as referred to in this press release represents "Net loss attributable to common stockholders". Non-GAAP adjusted net income (loss) is a non-GAAP financial measure defined by us as net loss before restructuring charges, stock-based compensation expense, and other non-recurring (income) expenses. We calculate adjusted net income (Loss) per basic and diluted share using the above-referenced definition of adjusted net income (Loss).

We have provided below reconciliations of adjusted EBITDA, non-GAAP adjusted net loss, non-GAAP adjusted net loss per share, non-GAAP operating expenses, non-GAAP gross profit and non-GAAP gross margin, to the most directly comparable U.S. GAAP financial measures. We have presented adjusted EBITDA because it is a key measure used by our management and the board of directors to understand and evaluate our core operating performance and trends, to prepare and approve our annual budget and to develop short and long-term operating plans. In particular, we believe that the exclusion of the amounts eliminated in calculating adjusted EBITDA can provide a useful measure for period-to-period comparisons of our core business performance. We believe adjusted net income (loss) and adjusted net income (loss) per basic and diluted share serve as appropriate measures to be used in evaluating the performance of our business and help our investors better compare our operating performance over multiple periods. Accordingly, we believe that the use of non-GAAP financial measures provide useful information to investors and others in understanding and evaluating our operating results in the same manner as our management and our board of directors.

Our use of non-GAAP financial measures have limitations as analytical tools, and you should not consider them in isolation or as a substitute for analysis of our financial results as reported under U.S. GAAP. Some of these limitations are as follows:

- Although depreciation and amortization expense are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements;
- Adjusted EBITDA does not reflect: (1) interest and tax payments that may represent a
  reduction in cash available to us; (2) capital expenditures, future requirements for
  capital expenditures or contractual commitments; (3) changes in, or cash requirements
  for, working capital needs; (4) the potentially dilutive impact of stock-based
  compensation expense; (5) potential future costs related to our long-term debt; (6)
  potential future restructuring expenses; (7) potential future costs related to business
  acquisitions; (8) gain (loss) on debt extinguishment, (9) and acquisition-related
  amortization of intangibles assets from business combinations, (10) deemed dividend
  related to warrants, or (11) manufacturing inventory provisions.
- Adjusted net income (loss) does not reflect: (1) potential future restructuring activities;
   (2) the potentially dilutive impact of stock-based compensation expense; (3) potential future costs related to our long-term debt; (4) potential future costs related to business acquisitions; (5) gain (loss) on debt extinguishment; (6) acquisition-related amortization of intangibles assets from business combinations; (7) deemed dividend related to

warrants; or (8) manufacturing inventory provisions.

Other companies, including companies in our industry, may calculate non-GAAP financial measures differently, which reduces its usefulness as a comparative measure. Because of these and other limitations, you should consider adjusted EBITDA and adjusted net income (loss) along with other U.S. GAAP-based financial performance measures, including various cash flow metrics and our U.S. GAAP financial results.

In addition, this press release includes non-GAAP adjusted net loss per share and adjusted EBITDA, each a non-GAAP measure used to describe our expected performance. We have not presented a reconciliation of these non-GAAP measures to our most comparable GAAP financial measures, because the reconciliation could not be prepared without unreasonable effort. The information necessary to prepare the reconciliations is not available on a forward-looking basis and cannot be accurately predicted. The unavailable information could have a significant impact on the calculation of the comparable GAAP financial measure.

The tables below reconcile the non-GAAP financial measures of adjusted EBITDA, net income, diluted EPS, operating expenses and gross margin with the most directly comparable GAAP financial measures (in thousands, unaudited).
