

## COLUMBUS

### About Columbus

Our Columbus operations include a hot-dip galvanizing facility in Columbus, Ohio, and a processing facility in nearby Obetz, Ohio. The central Ohio locations provide good shipping access with excellent highway and rail transport. Two zinc pots enable the transition between coatings to be accomplished promptly while allowing for longer exposed runs. The plant produces hot-dip galvanized sheet, using cold-rolled coils supplied by other Cleveland-Cliffs facilities.

### Facility Facts

<b>Plant Leadership</b>	Brian Richards
<b>Union Leadership</b>	Fred Silvia
<b>Acreage</b>	88, hosting two facilities with 443,000 square footage
<b>Coating Capacity</b>	450,000 tons annually
<b>Products</b>	Hot-dip galvanized sheet and galvanized sheet
<b>Markets Served</b>	Automotive and distribution
<b>Principal Production Facilities</b>	72-inch hot-dipped galvanizing line; facilities two 72-inch rewind lines
<b>Certifications</b>	IATF 16949 Certificate, ISO 14001 Certificate

### About Cleveland-Cliffs

Cleveland-Cliffs is the largest flat-rolled steel producer in North America. Founded in 1847 as a mine operator, Cliffs also is the largest manufacturer of iron ore pellets in North America. The Company is vertically integrated from mined raw materials, direct reduced iron, and ferrous scrap to primary steelmaking and downstream finishing, stamping, tooling, and tubing. The Company serves a diverse range of markets due to its comprehensive offering of flat-rolled steel products and is the largest supplier of steel to the automotive industry in North America. The Company is headquartered in Cleveland, Ohio with mining, steel and downstream manufacturing operations located across the United States and in Canada. For more information, visit [www.clevelandcliffs.com](http://www.clevelandcliffs.com).
