Capacity	Presses ranging from 250 - 1,500 ton, complex modular assembly
Products	Advanced high strength, frame & structure, specialized products, body-in-white, and aluminum
Markets Served	Automotive, heavy truck
Principal Production Facilities	Cold-stamping and assembly
Certifications	IATF 16949:2016

About Cleveland-Cliffs

Cleveland-Cliffs is the largest flat-rolled steel producer in North America. Founded in 1847 as a mine operator, Cliffs also is the largest manufacturer of iron ore pellets in North America. The Company is vertically integrated from mined raw materials, direct reduced iron, and ferrous scrap to primary steelmaking and downstream finishing, stamping, tooling, and tubing. The Company serves a diverse range of markets due to its comprehensive offering of flat-rolled steel products and is the largest supplier of steel to the automotive industry in North America. The Company is headquartered in Cleveland, Ohio with mining, steel and downstream manufacturing operations located across the United States and in Canada.
