# Georgia Aquarium Improves Security and Transforms Guest Experience with Evolv Technology

WALTHAM, Mass.--(BUSINESS WIRE)-- [Georgia Aquarium](#) has partnered with [Evolv Technology](#) (NASDAQ: EVLV), a leader in weapons detection screening, to improve weapons detection and the overall guest experience by using Evolv Express®, Evolv's award-winning screening solution, at the largest aquarium in the United States. As a result of the partnership, the Aquarium has seen a 15% increase in guest experience scores, while shrinking the security system lobby footprint by 50% and reallocating half of security staff to areas other than the entrance.

"The health and safety of our guests and employees has always been our top priority and using Evolv Express® at our entrances has allowed us to significantly enhance the overall guest experience at the Aquarium without compromising on or sacrificing security," said Anthony Rivera, senior vice president of hospitality and operations at Georgia Aquarium.

Evolv Express® leverages Evolv Cortex AI™, its best-in-class artificial intelligence (AI) weapons detection algorithms to instantly detect and identify a person carrying a weapon without slowing the flow of visitors carrying their personal items, improving security at the speed and scale required to stay ahead of today's threats. This reduces unsafe crowding, lowers the risk for human error, and removes the tradeoff between keeping a venue safe and providing a good experience for visitors.

Evolv's systems have been used to screen more than 100 million people in the U.S., second only to the Department of Homeland Security's Transportation Security Administration (TSA). Evolv Express® is 10 times faster than traditional metal detectors, resulting in screening an unparalleled 3,600 people per hour, per system. The world's most iconic venues and companies place their trust in Evolv to protect their employees and visitors, including Uber, Lincoln Center, L.L. Bean, Six Flags, and hundreds of others.

"As venues like Georgia Aquarium begin to welcome their visitors back, it's critical that the guest experience also adapts to the touchless, frictionless systems we have come to expect during the pandemic," said Peter George, CEO at Evolv. "We are delighted to be partnering with Georgia Aquarium as part of our mission to transform security to enhance everyone's life."

The screening system is currently in place at each guest entrance of the Aquarium. Guests will not have to stop, empty their pockets, or have their bags checked unless directed by security.

## **About Georgia Aquarium**

Georgia Aquarium is a leading 501(c)(3) non-profit organization located in Atlanta, Ga. that is Certified Humane by the American Humane Association and accredited by the Alliance of Marine Mammal Parks and Aquariums and the Association of Zoos and Aquariums. Georgia Aquarium is committed to working on behalf of all marine life through education, preservation, exceptional animal care, and research across the globe. Georgia Aquarium continues its mission each day to inspire, educate, and entertain its millions of guests about the aquatic biodiversity throughout the world through its hundreds of exhibits and tens of thousands of animals across its seven major galleries. For more information, visit [www.georgiaaquarium.org](http://www.georgiaaquarium.org).

## **About Evolv Technology**

Evolv Technology (NASDAQ: EVLV) is a leader in weapons detection for security screening, securing the world's most iconic venues and companies. Its mission is enabling a better experience and better security for venues, creating a safer world to work, learn, and play by transforming physical security to make everywhere safer. It gives sports fans, theme park visitors, concertgoers, shoppers, employees, students, and others peace of mind so that they can gather without fear of violence. Its security screening has scanned more than 100 million people, second only to the Department of Homeland Security's Transportation Security Administration (TSA) in the United States, and its technology combines powerful, advanced sensors with proven artificial intelligence (AI), security ecosystem integrations, and comprehensive venue analytics to reliably detect threats 10 times faster than traditional metal detectors.

Evolv Technology, Evolv Express®, Evolv Insights™, and Evolv Cortex AI™ are registered trademarks or trademarks of Evolv Technologies, Inc. in the United States and other jurisdictions.

## **Forward-looking Statements**

Certain statements in this press release may constitute "forward-looking" statements and information, within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995 that relate to our current expectations and views of future events. All statements other than statements of historical facts contained in this press release, including statements regarding the potential of the Evolv Express® security system are forward-looking statements. These statements involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance, or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. In some cases, these forward-looking statements can be identified by words or phrases such as "may," "will," "expect," "should," "could," "anticipate," "aim," "estimate," "intend," "plan," "believe," "potential," "continue," "is/are likely to" or the negative of these terms or other similar expressions.

These forward-looking statements are subject to risks, uncertainties, and assumptions, some of which are beyond our control. In addition, these forward-looking statements reflect our current views with respect to future events or our Company's performance and are not a guarantee of future performance. Actual outcomes may differ materially from the information

contained in the forward-looking statements as a result of a number of factors, including, without limitation the risk factors set forth under the caption “Risk Factors” in our proxy statement/prospectus, filed with the Securities and Exchange Commission (the “SEC”) on June 28, 2021, as updated by the risk factors disclosed in the section titled “Risk Factors” in our Form 8-K, filed with the SEC on July 22, 2021, and in our other documents filed with or furnished to the SEC.

These statements reflect management’s current expectations regarding future events and operating performance and speak only as of the date of this press release. You should not put undue reliance on any forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee that future results, levels of activity, performance and events and circumstances reflected in the forward-looking statements will be achieved or will occur. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events.
