Full-Year 2019 Highlights

- Net income attributable to common stockholders was \$3.4 million, or \$0.10 per diluted share, as compared to \$7.7 million, or \$0.35 per diluted share, in the prior year, which included a \$7.7 million gain on sale of investment property.

- AFFO of \$0.75 per share and unit, as compared to \$0.76 per share and unit in the prior year.

- Raised approximately \$200.1 million in gross proceeds, primarily through a combination of public offerings of common stock and ATM issuances.

Jeffrey M. Busch, Chairman, Chief Executive Officer and President stated, “2019 was an exceptional year for GMRE as we invested \$253.5 million in 18 high-quality, medical facility acquisitions, that position us for long-term growth. We exceeded our acquisition expectations and maintained our discipline in underwriting, achieving a weighted average cap rate of 7.5% for these acquisitions. As we continue to accretively scale our platform, we also grew our enterprise value to \$1.1 billion with stockholders’ equity of more than \$500 million. This important milestone prompted the Board of Directors to form a special committee of independent and disinterested directors to evaluate a potential internalization transaction.”

Mr. Busch continued, “We are excited about our prospects as we look ahead. Our pipeline remains large and active and despite an increasingly competitive acquisition environment, we are confident in our ability to further grow our platform. We are proud of our accomplishments in 2019 and are enthusiastic for what lies ahead.”

Financial Results

Rental revenue for the fourth quarter of 2019 increased 42.1% period-over-period to \$20.4 million, reflecting the growth in the Company’s portfolio over the last twelve months.

Total expenses for the fourth quarter were \$17.7 million, compared to \$12.5 million for the comparable prior year period, primarily reflecting the growth in the Company’s property portfolio. Interest expense for the fourth quarter of 2019 was \$4.8 million, compared to \$4.3 million for the comparable prior year period. This increase is primarily due to higher average borrowings during the quarter which helped fund our property acquisitions.

Net income attributable to common stockholders for the fourth quarter totaled \$1.2 million, or \$0.03 per share, compared to net income of \$7.0 million, or \$0.31 per share, in the comparable prior year period. The year-over-year change was primarily due to a \$7.7 million gain on sale of investment property recorded in the prior year period, partially offset by the benefits of accretive acquisition activity in 2019.

The Company reported FFO of \$0.21 per share and unit for the fourth quarter, as compared to \$0.20 per share and unit in the comparable prior year period. AFFO was \$0.21 per share and unit for the fourth quarter versus \$0.20 per share and unit in the comparable prior year period.

ABOUT GLOBAL MEDICAL REIT

Global Medical REIT Inc. is net-lease medical office REIT that acquires purpose-built specialized healthcare facilities and leases those facilities to strong healthcare systems and physician groups with leading market share.

NON-GAAP FINANCIAL MEASURES

FFO and AFFO are non-GAAP financial measures within the meaning of the rules of the United States Securities and Exchange Commission ("SEC"). The Company considers FFO and AFFO to be important supplemental measures of its operating performance and believes FFO is frequently used by securities analysts, investors, and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. In accordance with the National Association of Real Estate Investment Trusts' ("NAREIT") definition, FFO means net income or loss computed in accordance with GAAP before non-controlling interests of holders of OP units and LTIP units, excluding gains (or losses) from sales of property and extraordinary items, less preferred stock dividends, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and above-market lease amortization expense), and after adjustments for unconsolidated partnerships and joint ventures. Because FFO excludes real estate-related depreciation and amortization (other than amortization of deferred financing costs and above market lease amortization expense), the Company believes that FFO provides a performance measure that, when compared period-over-period, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs,

providing perspective not immediately apparent from the closest GAAP measurement, net income or loss.

AFFO is a non-GAAP measure used by many investors and analysts to measure a real estate company's operating performance by removing the effect of items that do not reflect ongoing property operations. Management calculates AFFO by modifying the NAREIT computation of FFO by adjusting it for certain cash and non-cash items and certain recurring and non-recurring items. For the Company these items include: (a) recurring acquisition and disposition costs, (b) loss on the extinguishment of debt, (c) recurring straight line deferred rental revenue, (d) recurring stock-based compensation expense, (e) recurring amortization of above market leases, (f) recurring amortization of deferred financing costs, (g) recurring lease commissions, and (h) other items.

Management believes that reporting AFFO in addition to FFO is a useful supplemental measure for the investment community to use when evaluating the operating performance of the Company on a comparative basis. The Company's FFO and AFFO computations may not be comparable to FFO and AFFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, that interpret the NAREIT definition differently than the Company does, or that compute FFO and AFFO in a different manner.

RENT COVERAGE RATIO

For purposes of calculating our portfolio weighted-average EBITDARM coverage ratio ("Rent Coverage Ratio"), we excluded credit-rated tenants or their subsidiaries for which financial statements were either not available or not sufficiently detailed. These ratios are based on latest available information only. Most tenant financial statements are unaudited and we have not independently verified any tenant financial information (audited or unaudited) and, therefore, we cannot assure you that such information is accurate or complete. Certain other tenants (approximately 3% of our portfolio) are excluded from the calculation due to lack of available financial information. Additionally, our Rent Coverage Ratio adds back physician distributions and compensation. Management believes that all adjustments are reasonable and necessary.

These forward-looking statements are identified by their use of terms and phrases such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "should," "plan," "predict," "project," "will," "continue" and other similar terms and phrases, including references to assumptions and forecasts of future results.
