"Cadre's strong Q4 results capped off an outstanding year for the Company, as we continued to capitalize on our entrenched positions in law enforcement, first responder and military markets," said Warren Kanders, CEO and Chairman. "Against a backdrop of persistent supply chain disruptions and inflationary pressures, Cadre once again exceeded our 1% pricing growth target above inflation and generated record full year net sales and adjusted EBITDA. Consistent with our strategic focus on adding high margin companies with leading market positions and strong recurring revenues and cash flows, we completed two accretive acquisitions in 2022 and are pleased with their efficient integration and favorable prospects."

Mr. Kanders added, "Looking ahead in 2023, we anticipate our resilient operating model to

continue to drive strong free cash flows that enable us to capitalize on attractive opportunities. Executing targeted M&A is a core tenet of Cadre's strategy and remains a top priority. As we navigate the current M&A environment, we are focused on actively evaluating deals in line with our key criteria and maintaining our disciplined approach, complemented by our core organic growth initiatives. Going forward we believe Cadre is ideally positioned to further enhance our leadership in providing mission-critical safety and survivability equipment, as we seek to execute our strategic objectives and build significant value, while driving margin expansion over the long term."

Fourth Quarter and Year Ended 2022 Operating Results

For the quarter ended December 31, 2022, Cadre generated net sales of \$123.6 million, as compared to \$103.5 million for the quarter ended December 31, 2021. The increase in the Product segment was primarily the result of recent acquisitions but we also experienced double digit percent increases for armor products, duty gear products and crowd control products, which were offset by project timing in our EOD products. The increase in the Distribution segment was primarily the result of agency demand for hard goods.

For the year ended December 31, 2022, Cadre generated net sales of \$457.8 million, as compared to \$427.3 million for the prior year period, mainly driven by recent acquisitions, armor and duty gear products demand, and agency demand for hard goods through our Distribution segment.

For the quarter ended December 31, 2022, Cadre generated gross profit of \$48.5 million, as compared to \$39.2 million for the quarter ended December 31, 2021. For the year ended December 31, 2022, Cadre generated gross profit of \$175.7 million, as compared to \$170.7 million for the prior year period.

Gross profit margin was 39.2% for the quarter ended December 31, 2022, as compared to 37.9% for the quarter ended December 31, 2021 mainly driven by favorable pricing above inflation and product mix.

Gross profit margin was 38.4% for the year ended December 31, 2022, as compared to 39.9% for the prior year period, mainly driven by 110 basis points from the amortization of inventory step-up recorded as part of the recent acquisitions and unfavorable channel and portfolio mix, partially offset by pricing in excess of material inflation.

Net income was \$6.6 million for the quarter ended December 31, 2022, as compared to net income of \$4.3 million for the quarter ended December 31, 2021. The increase resulted primarily from improved revenue partially offset by increased stock-based compensation expense.

Net income was \$5.8 million for the year ended December 31, 2022, as compared to net income of \$12.7 million for the prior year period, primarily as a result of increased stock-based compensation expense, partially offset by an increase in net sales and the loss on extinguishment of debt related to the August 2021 debt refinance.

Cadre generated \$22.4 million of Adjusted EBITDA for the quarter ended December 31, 2022, as compared to \$15.3 million for the quarter ended December 31, 2021. Adjusted EBITDA margin was 18.1% for the quarter ended December 31, 2022, as compared to

14.7% for the prior year period.

Cadre generated \$75.7 million of Adjusted EBITDA for the year ended December 31, 2022, as compared to \$71.4 million for the prior year period. Adjusted EBITDA margin was 16.5% for the year ended December 31, 2022, as compared to 16.7% for the prior year period.

Product segment gross profit margin was 40.4% for the fourth quarter and 40.3% for the year ended December 31, 2022. This compares to 38.8% and 40.9% for the respective prior year periods.

Distribution segment gross profit margin was 21.8% for the fourth quarter and 21.1% for the year ended December 31, 2022. This compares to 23.9% and 24.9% for the respective prior year periods.

Liquidity, Cash Flows and Capital Allocation

- Cash and cash equivalents increased by \$11.4 million from \$33.9 million as of December 31, 2021 to \$45.3 million as of December 31, 2022.
- Total debt decreased by \$10.0 million from \$159.7 million as of December 31, 2021, to \$149.7 million as of December 31, 2022.
- Net debt (total debt net of cash and cash equivalents) decreased by \$21.4 million from \$125.8 million as of December 31, 2021, to \$104.4 million as of December 31, 2022.
- Capital expenditures totaled \$1.5 million for the fourth quarter and \$4.7 million for the year ended December 31, 2022, compared with \$0.8 million for the fourth quarter and \$3.0 million for the year ended December 31, 2021.

2023 Outlook
