

Datavault Al Signs Multi-Million Dollar RWA Services Agreement With Triton Geothermal to Provide Significant Revenue Opportunities

PHILADELPHIA, PA / ACCESS Newswire / November 17, 2025 / Datavault Al Inc. (Nasdaq:DVLT), a provider of advanced data management and valuation technologies, announced today that it has executed a multi-year services agreement with Triton Geothermal LLC, a full-cycle geothermal development company preparing a large-scale asset program built on a reservoir validated through U.S. Department of Energy research.

Under the agreement, Datavault Al will act as Triton's exclusive technology partner across Real World Asset (RWA) digitization, valuation, and structured monetization services for Triton's current and future geothermal assets. The agreement provides Datavault Al with up to \$8 million in upfront and milestone-based fees tied to Triton's planned \$125 million RWA offering, along with 5% participation in Triton's transaction fees going forward.

According to Triton's Chief Executive Officer, Pietro Castelli, "The use of Datavault Al's platform is expected to enhance the transparency, compliance, and operational control of tokenized renewable energy assets."

Datavault Al's Chief Marketing Officer and Lead Principal Investigator for a Strategic Partnership Project with the U.S. Department of Energy's Brookhaven National Laboratory, Sonia Choi, stated, "This is an exciting moment for us. It not only reflects the growing maturity of our work in RWA tokenization but also shows how real-world digital assets can meaningfully support renewable energy initiatives. We're energized to kick things off and move this next phase forward together."

Datavault Al's Chief Executive Officer and co-founder, Nathaniel Bradley, said, "Geothermal is one of the very few natural renewable energy sources, and it is uniquely positioned to become a key solution in the progression of advanced energy systems and Al driven infrastructure. This opportunity represents the viability of integrating structured RWAs with renewable energy development programs to accelerate energy production in the United States."

Datavault AI expects the agreement to support its revenue growth trajectory through 2025 and 2026, and to further establish the company's presence in energy and infrastructure markets.

About Datavault Al

Datavault Al[™] (Nasdag:DVLT) is leading the way in Al driven data experiences, valuation and monetization of assets in the Web 3.0 environment. The Company's cloud-based platform provides comprehensive solutions with a collaborative focus in its Acoustic Science and Data Science Divisions. Datavault Al's Acoustic Science Division features WiSA®, ADIO® and Sumerian® patented technologies and industry-first foundational spatial and multichannel wireless HD sound transmission technologies with IP covering audio timing, synchronization and multi-channel interference cancellation. The Data Science Division leverages the power of Web 3.0 and high-performance computing to provide solutions for experiential data perception, valuation and secure monetization. Datavault Al's cloud-based platform provides comprehensive solutions serving multiple industries, including HPC software licensing for sports & entertainment, events & venues, biotech, education, fintech, real estate, healthcare, energy and more. The Information Data Exchange[®] (IDE) enables Digital Twins, licensing of name, image and likeness (NIL) by securely attaching physical real-world objects to immutable metadata objects, fostering responsible AI with integrity. Datavault Al's technology suite is completely customizable and offers Al and Machine Learning (ML) automation, third-party integration, detailed analytics and data, marketing automation and advertising monitoring. The Company is headquartered in Philadelphia, PA. Learn more about Datavault Al at www.dvlt.ai.

Forward-Looking Statements

This press release contains "forward-looking statements" (within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, and other securities laws) about Datavault Al Inc. ("Datavault Al" or the "Company") and its industry that involve risks and uncertainties. In some cases, you can identify forward-looking statements because they contain words, such as "may," "might," "will," "shall," "should," "expects," "plans," "anticipates," "could," "intends," "target," "projects," "contemplates," "believes," "estimates," "predicts," "potential," "goal," "objective," "seeks," "likely" or "continue" or the negative of these words or other similar terms or expressions that concern the Company's expectations, strategy, plans or intentions. The absence of these words does not mean that a statement is not forward-looking. Such forward-looking statements, including statements regarding future events, expected revenues from the Tokenization Service Agreement with Triton, including the anticipated Digital Token offering and future transaction fee participation, Datavault Al's ability to deploy and scale its tokenization technologies, Datavault Al's expectation that engagements similar to the one with Triton will become an increasing component of its revenue base, the potential development of geothermal or other resource-backed digital asset offerings, market acceptance of tokenized assets, expected valuation processes, and the broader commercialization of Datavault Al's RWA solutions, are necessarily based upon estimates and assumptions that, while considered reasonable by the Company and its management, are inherently uncertain. Readers are cautioned not to place undue reliance on these and other forward-looking statements contained herein.

Actual results may differ materially from those indicated by these forward-looking statements as a result of various risks and uncertainties including, but not limited to, the following: changes in economic, market, or regulatory conditions; risks related to the completion, size, timing, or success of the proposed Digital Token offering; the ability of Triton to complete its financing and project development activities; the ability of Datavault AI to execute the services described in the agreement with Triton; uncertainties regarding valuation methodologies and third-party reports; risks relating to evolving regulatory frameworks

applicable to tokenized assets; risks associated with technological development and integration; and other risks and uncertainties as more fully described in Datavault Al's filings with the U.S. Securities and Exchange Commission (the "SEC"), including its Annual Report on Form 10-K for the year ended Dec. 31, 2024, and other filings that Datavault Al makes from time to time with the SEC, which are available on the SEC's website at www.sec.gov, and could cause actual results to vary from expectations.

The forward-looking statements made in this press release relate only to events as of the date on which the statements are made. Datavault Al undertakes no obligation to update any forward-looking statements made in this press release to reflect events or circumstances after the date of this press release or to reflect new information or the occurrence of unanticipated events, except as required by law. Datavault Al may not actually achieve the plans, intentions or expectations disclosed in its forward-looking statements, and you should not place undue reliance on such forward-looking statements. Datavault Al's forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments it may make.
