# Stratasys Earns EcoVadis Gold Medal for Sustainability, Ranking in Top 5% of Global Companies Assessed

*Recognition underscores enterprise-wide environmental, social and governance management, setting the standard as leading 3D-printing business partner for future-minded manufacturing enterprises*

MINNETONKA, Minn. & REHOVOT, Israel--(BUSINESS WIRE)-- Stratasys Ltd. (NASDAQ: SSYS) announced today that it has earned a Gold Medal from EcoVadis for sustainability, placing the company in the top 5% of 150,000 organizations evaluated globally, improving its status from last year's Silver rating. Being at the highest level of ESG performance helps strengthen our value proposition to customers and their sustainable goals.

Stratasys achieved the Gold Medal Sustainability Rating with EcoVadis, putting it in the top 5% of organizations that are evaluated globally.

EcoVadis is a leading provider of business sustainability ratings, evaluating companies

across four key areas: environment, labor and human rights, ethics, and sustainable procurement.

“Through our Mindful Manufacturing™ commitment, we’re building the evidence-based, data-driven responsible business practices that our customers and strategic stakeholders increasingly expect from a future-ready manufacturing partner,” said Rosa Coblens, Vice President, Sustainability and Communications, Stratasys. “Earning the EcoVadis Gold Medal and ranking in the top 5% globally is an important recognition of the hard and dedicated work our global teams have done to strengthen sustainability infrastructures across the company.”

Stratasys' improved rating reflects sustainability excellence, maturity of management systems, and continued progress across enterprise sustainability practices, including reporting emissions across the value chain (Scope 3), increased supplier engagement on ESG, ongoing research on product environmental impacts through Life Cycle Analyses (LCAs), and third party limited assurance processes for carbon reporting.

As a leading 3D printing business partner for future-ready manufacturing enterprises, Stratasys helps customers scale production of parts while supporting more efficient, optimized, and responsible manufacturing.
