# Biokin Pharmaceutical Selects Cryoport's Temperature-Controlled Solutions for its Pending Phase I and Phase II trials

CHENGDU, China and SEATTLE and IRVINE, Calif., March 28, 2019 /PRNewswire/ - Biokin Pharmaceutical Co. Ltd., ("Biokin Pharma") a leading pharmaceutical company with operations in China and U.S., and Cryoport, Inc. (NASDAQ: CYRX) (NASDAQ: CYRXW) ("Cryoport"), the world's leading temperature-controlled logistics company dedicated to the life sciences industry, today announced Cryoport's full suite of temperature-controlled solutions will support Biokin Pharma's pending Phase I and II clinical trials in immuno-oncology in both the U.S. and China.

Biokin Pharma, is a biopharmaceutical company based in China focused on the treatment of cancer through developing novel therapeutic antibodies and antibody-drug conjugates ("ADC"s). Led by a group of highly experienced immuno-oncology scientists, the company utilizes several technology platforms to develop world class advanced antibody-based drug therapies. Its wholly-owned subsidiary SystImmune Inc. ("SystImmune"), which is funded in part by OrbiMed, was formed to advance its mission in the United States. Partnering with Cryoport will enable Biokin Pharma and SystImmune to utilize Cryoport's full range of temperature-controlled logistics solutions to support its drug manufacturing processes across the globe. These solutions include the Cryoport Express® shippers, the industry-leading Cryoport<sup>™</sup> Logistics Management Platform, Smartpak II<sup>™</sup> Condition Monitoring System and 24/7/365 logistics support.

"We are pleased to choose the highly reliable condition- and time-sensitive logistics solutions provided by Cryoport to support our upcoming clinical studies using Bispecific and Multi-specific Antibody, ADC, and T-cell Therapy," said Dr. Yi Zhu, Chairman of Biokin Pharma and its U.S. subsidiary, Systimmune of Seattle, WA. "By relying on Cryoport's excellent solutions, Biokin Pharma and Systimmune will continue to have the best possible viability and recovery of critical cells, vectors, antibodies and other materials, even after time-

consuming international or domestic transportation, to ensure the best outcome for our patients."

"As the regenerative medicine market rapidly matures, the demand for our technology-driven solutions to support trials across the globe is growing. We look forward to working alongside Biokin Pharma and its U.S. subsidiary to ensure reliable, secure logistics support for their temperature-sensitive commodities as they advance the development of potentially life-saving therapies," said Mark Sawicki, PhD, Chief Commercial Officer of Cryoport.

### **About Biokin Pharma**

Biokin Pharma researches and develops innovative therapies in immuno-oncology for cancer patients worldwide using targeted antibody, ADC, and cell therapy. For 2019 to 2020, Biokin expects to start four clinical trials in the U.S. and China using its SI-B001, SI-B003/032, GNC-038/039 therapies. One of the industry's leading biopharma companies, Biokin Pharma was founded in 1996 by Dr. Yi Zhu with GMP R&D and manufacturing facilities in China and a US subsidiary- Systimmune Inc in Seattle WA. Biokin and Systimmune today have a leading portfolio of medicines targeting Epithelial Tumor, Non-small cell lung cancer, blood cancer, solid tumor, and other indications.
