Celularity Selects Cryoport's Temperature Controlled Logistics Solutions

IRVINE, Calif., April 11, 2019 /PRNewswire/ -- Cryoport, Inc. (NASDAQ: CYRX) (NASDAQ: CYRXW) ("Company"), the world's leading temperature-controlled logistics company dedicated to the life sciences industry, today announced it has been selected by Celularity, a world leading allogeneic cell therapy company, to utilize its complete range of temperature-controlled solutions.

Cryoport is the life sciences industry's foremost temperature-controlled logistics provider, supporting over 357 clinical trials globally as well as blockbuster FDA-approved CAR-T therapies from Novartis and Gilead.

Celularity is a clinical-stage cell therapeutics company developing allogeneic cellular therapies harnessed from human placentas through its proprietary IMPACT™ platform across immuno-oncology, inflammatory & age-related diseases. The agreement will give Celularity access to Cryoport's full suite of temperature-controlled logistics solutions, including the Cryoport Express® shippers, the industry-leading Cryoport® Logistics Management Platform, Smartpak II™ Condition Monitoring System and 24/7/365 logistics support.

Jerrell Shelton, Chief Executive Officer of Cryoport, said, "We are proud to support Celularity's clinical programs for the development of transformative allogeneic cell therapies. Cryoport's end-to-end, industry-leading, temperature-controlled logistics solutions protect the biologic commodities that underpin these potentially ground-breaking therapies and play a vital role in their development."

John R. Haines, Chief Administrative Officer of Celularity, said, "Celularity's IMPACT™ platform seamlessly integrates biosourcing through advanced cell manufacturing and productization of allogeneic placental-derived cell therapeutics. Industry-leading supply chain management tools are critical to our ability to deliver transformative, on-demand, off-

the-shelf therapeutic options to patients in the United States and worldwide. We look forward to partnering with Cryoport for cell therapy product logistics management."

About Celularity, Inc.

Celularity, headquartered in Warren, New Jersey, is a clinical-stage cell therapeutics company delivering transformative allogeneic cellular therapies, engineered from the postpartum human placenta. Using proprietary technology in combination with its IMPACTTM platform, Celularity is the only company to harness the versatility of placenta-derived cells as highly scalable, off-the-shelf treatments for patients with cancer, inflammatory and age-related diseases. About Cryoport, Inc.

Cryoport is a trusted global provider of temperature-controlled logistics solutions for life sciences commodities during distribution, serving the biopharmaceutical market with leading-edge logistics solutions for biologic materials, such as regenerative medicine, including immunotherapies, stem cells and CAR-T cells. Cryoport's solutions are used by points-of-care, CRO's, central laboratories, pharmaceutical companies, manufacturers, university researchers et al; as well as the reproductive medicine market, primarily in IVF and surrogacy; and the animal health market, primarily in the areas of vaccines and reproduction. Cryoport's proprietary Cryoport Express® Shippers, Cryoport® Logistics Management Platform, leading-edge SmartPak II™ Condition Monitoring System and geo-sensing technology, paired with unparalleled cold chain logistics expertise and 24/7 client support, make Cryoport the end-to-end cold chain logistics partner that the industry trusts.

Cryoport is dedicated to: simplifying global cold chain logistics through innovative technology, unmatched monitoring and data capture and support, including consulting; delivering the most advanced temperature-controlled logistics solutions for the life sciences industry; and providing vital information that provides peace of mind throughout the life of each logistics process.
