Cryoport and Inception Fertility Enter Into Agreement

Cryoport's temperature-controlled supply chain management platform will support global logistics for The Prelude Network, the largest network of fertility centers in the U.S.

NASHVILLE, Tenn., Feb. 26, 2020 /PRNewswire/ -- Cryoport, Inc. (NASDAQ: CYRX) (NASDAQ: CYRXW) ("Cryoport"), the world's leading temperature-controlled logistics company dedicated to the life sciences industry, today announced a multi-year agreement with **Inception Fertility**, LLC ("Inception Fertility"), a Houston-based company which operates [The Prelude Network](#), the largest and fastest growing network of fertility centers in the United States and [MyEggBank](#), one of the largest frozen donor egg banks in North America. Under the terms of this partnership, The Prelude Network and MyEggBank will utilize Cryoport's temperature-controlled supply chain solutions to deliver a superior patient experience across its entire clinical network, which will provide significant risk mitigation for its clients.

The Prelude Network and MyEggBank will utilize Cryoport's world-class supply chain management and informatics platform to process both domestic and international shipments of eggs, embryos and throughout its global network to help thousands of people grow their families. In addition to Cryoport assuming responsibility for all domestic logistics activity, international shipments are expected to rapidly increase as Cryoport's solutions will expand Inception Fertility's processing bandwidth.

"The Prelude Network is the fastest-growing network of fertility clinics and largest provider of comprehensive fertility services in the U.S. and we are proud they have chosen Cryoport's end-to-end solutions to manage their supply chain business. Supporting The Prelude Network will allow us to significantly expand our presence in the global Reproductive Medicine market. Our partnership comes as The Prelude Network experiences rapid growth

and prioritizes improved streamlining of business processes across its enterprise for the protection of its products and services," said Jerrell Shelton, CEO of Cryoport.

T.J. Farnsworth, CEO of Inception Fertility, commented, "As we continue to expand our network of top tier fertility centers and serve higher numbers of patients in new geographies, business efficiency and risk mitigation continues to be a focal point. We need a supply chain partner that has the scale to support us as we streamline and grow our network, utilizing a strict set of operating principles. We are pleased to choose Cryoport's world-class supply chain management and informatics platform to ensure we continue to offer a high-quality patient experience for our clients, no matter where they are in the world."

About Cryoport, Inc.

Cryoport, Inc. (Nasdaq: CYRX) is the world's premier provider of temperature-controlled supply chain solutions for the life sciences industry, serving the Biopharma, Human Reproductive, and Animal Health markets. Our mission is to support life and health on earth by providing reliable and comprehensive solutions for the life sciences through our advanced technologies, Global Supply Chain Network and dedicated scientists, technicians and supporting team of professionals. The Prelude Network

The Prelude Network (Prelude), the fastest-growing network of fertility clinics and largest provider of comprehensive fertility services in the U.S., is the clinic network of Inception – a company whose mission is to shift the paradigm of the fertility market by raising the standard of care, streamlining fragmented components into an integrated system and enhancing the overall patient experience.

Each clinic as part of the Prelude Network is committed to delivering the highest level of personalized fertility care by the nation's leading reproductive endocrinologists, embryologists and practitioners by focusing on an excellence in science, medicine and the patient experience. The growing Prelude Network has 41 total locations nationwide, offering a wide range of fertility services including egg freezing, IVF, genetic testing and egg/embryo storage, among others.
