# HeartBeam to Attend Investor and Industry Conferences in March, Focused on Providing Updates on Commercial Launch and Unveiling 12-Lead ECG Extended Wear Patch

SANTA CLARA--(BUSINESS WIRE)-- [HeartBeam, Inc.](#) (NASDAQ: BEAT), a medical technology company focused on transforming cardiac care by providing powerful cardiac insights, today announced that management will attend key investor and industry conferences in March 2026.

HeartBeam CEO Robert Eno and CFO Timothy Cruickshank will attend the virtual Oppenheimer 36th Annual Healthcare MedTech & Services Conference on March 16-17, 2026. Management will host a presentation webcast on March 16 at 11:20 a.m. Eastern time (8:20 a.m. Pacific time) and host one-on-one meetings with institutional and retail investors.

Mr. Eno and Mr. Cruickshank will also attend the 38th Annual ROTH Conference taking place in Dana Point, California in person on March 23-24, 2026. Mr. Eno will participate on the panel 'Technologies Advancing Healthy Aging' on March 23 at 5:00 p.m. Eastern time (2:00 p.m. Pacific time). They will also host one-on-one meetings with institutional and retail investors.

Mr. Eno, Founder and President Dr. Branislav Vajdic and Chief Commercial Officer Bryan Humbarger will attend ACC.26, the American College of Cardiology's annual scientific conference on March 28-30, 2026. The HeartBeam team will have a booth (#209) and will provide demos of their recently FDA-cleared HeartBeam System. In addition, the team will provide demos of the working prototype 12-lead ECG extended wear patch (not FDA-approved) to physicians and potential industry partners.

### **About HeartBeam, Inc.**

HeartBeam, Inc. (NASDAQ: BEAT) is a medical technology company dedicated to transforming the detection and monitoring of critical cardiac conditions. The Company is creating the first-ever cable-free device capable of collecting ECG signals in 3D, from three non-coplanar directions, and synthesizing the signals into a 12-lead ECG. This platform technology is designed for portable devices that can be used wherever the patient is to deliver actionable heart intelligence. Physicians will be able to identify cardiac health trends and acute conditions and direct patients to the appropriate care – all outside of a medical facility, thus redefining the future of cardiac health management. HeartBeam's 3D ECG technology received FDA clearance for arrhythmia assessment in December 2024 and the 12-lead ECG synthesis software in December 2025<sup>1</sup>. The Company holds over 20 issued patents related to technology enablement. For additional information, visit [HeartBeam.com](https://www.heartbeam.com).

### **<sup>1</sup>Cleared Indications for Use**

The HeartBeam System with 12-Lead ECG synthesis software for arrhythmia assessment received FDA clearance in December 2025. Refer to the Company's Cleared Indications for Use at <https://www.heartbeam.com/indications> for details on the intended use of its technology.
