Medovex Corporation to Present at the Sidoti & Company Fall 2017 Conference

ATLANTA, GA -- (Marketwired) -- 09/20/17 -- Medovex Corp. (NASDAQ: MDVX) ("Medovex" or the "Company"), the developer of the DenerveX® System, a new and novel device designed for enduring relief of Facet Joint Syndrome related to back pain, today announced that Jesse Crowne, Executive Co-Chairman, will present at the Sidoti & Company Fall 2017 Conference on Thursday September 28, 2017 at 4:15 PM Eastern Time.

The conference is being held at the New York Marriott Marquis in New York, New York.

A live broadcast of the conference presentation will be available. To access the broadcast, go to the "Investor Relations" section of the Company's website at www.medovex.com. A replay of the conference presentation will also be available.

Investors and analyst that are interested in meeting with management can contact Caitlin Adams of Sidoti at conference@sidoti.com.

Facet Joint Syndrome (FJS), also known as spinal osteoarthritis, spinal arthritis, or facet joint osteoarthritis, is a significant health and economic problem in the United States and other countries in the EU and Rest of World affecting millions each year. Current treatment options are generally temporary and there is no proven long-lasting option for FJS.

The Company's DenerveX System is a highly differentiated technology. It denervates and removes capsular tissue from the Facet Joint in one single procedure. Treatment results from the combined effect of a deburring or polishing action and RF ablation treatment on the Facet Joint. Using this new technique, the slowly rotating burr removes the targeted facet joint synovial membrane and joint surface while the heat ablation destroys tissue and denudes any residual nervous and synovial membrane overlying the joint, removing the end point sensory tissue of the joint.

The DenerveX System consists of the DenerveX Kit which contains the DenerveX Device, a single use medical device and the DenerveX Pro-40 Power Generator. DenerveX system is not yet FDA cleared.

About Medovex

Medovex was formed to acquire and develop a diversified portfolio of potentially ground breaking medical technology products. Criteria for selection include those products with potential for significant improvement in the quality of patient care combined with cost effectiveness. The Company's first pipeline product, the DenerveX device, is intended to provide long lasting relief from pain associated with facet joint syndrome at significantly less cost than currently available options.
