Sonic Automotive, Inc. Reports 21% Vehicle Revenue Growth; Adjusted Continuing Ops Profit Up 41% Over Prior Year Quarter

CHARLOTTE, N.C., July 29 /PRNewswire-FirstCall/ -- Sonic Automotive, Inc. (NYSE: SAH), the nation's third-largest automotive retailer, today reported that 2010 second quarter adjusted earnings from continuing operations were \$15.6 million, up 41% from adjusted earnings from continuing operations in the same prior year period. On a per share basis, the Company earned an adjusted \$0.27 per diluted share from continuing operations, compared to an adjusted \$0.23 per diluted share from continuing operations in the same prior year quarter. The adjustments, which are related primarily to debt refinancing activities and market-to-market adjustments on interest rate swaps, are detailed further in the attached tables.

During the second quarter, the Company completed the retirement of \$200 million of our 8.625% senior subordinated notes using proceeds from a debt offering that was completed in March 2010.

Business Overview – Revenue Growth In Every Business Line Over Q2 of Last Year

Commenting on the quarter, B. Scott Smith, the Company's President, said, "We are pleased with the growth in both revenues and profits over the second quarter of last year. Our new vehicle business is up both sequentially and over the same period last year as we continue to see economic stabilization in certain segments of our geographic footprint. The growth in our used vehicle business continues to drive incremental revenue in our fixed operations and F&I departments. Our strategy for some time has been focused on standardizing our operating procedures through the rollout of our operational playbooks. Results this quarter demonstrate one of the primary benefits of our operational playbooks – they create growth opportunities not just in their specific area of the business but across all of our business lines."

New and Used Vehicles – Revenue Increases 19% and 23%, Respectively

New vehicle retail revenue increased 19% and used vehicle retail revenue increased 23% for the second quarter of 2010 compared to the same quarter last year. Jeff Dyke, the Company's EVP of Operations, stated, "We are pleased with our new vehicle growth, particularly given that our volume declines in 2009 were not as severe as what the overall industry experienced due to our favorable brand and geographic mix. Our dealerships continue to take market share and outperform the competition in their local markets. We are excited to announce that our New Car Playbook will be introduced to our stores later this year. We expect it to provide us many of the same successes that we have already

received from our proven Used Vehicle Playbook. We also continue to be very pleased with our used vehicle volume growth especially when we consider the 20% growth comes on top of 12% growth in 2009. We continue to show that the used car business has tremendous upside potential as the second quarter was our largest used vehicle volume and gross profit quarter in our Company's history."

Service, Parts & Body Shop – Revenue and Gross Profit Both Increase

Sonic's Service, Parts & Body Shop revenue for the second quarter was up approximately 5% compared to the prior year quarter, while gross profit dollars were up over 3%. Mr. Dyke stated, "Our operational strategies in parts and service are specifically designed to increase the non-warranty pieces of our business to respond to improved vehicle quality, fewer units in operation and changing warranty programs. We have seen consistent growth in both our customer pay business and in the revenues we earn for reconditioning work done on pre-owned vehicles."

Presentation materials for the Company's July 29, 2010 earnings conference call at 11:00 A.M. (Eastern) can be accessed on the Company's website at www.sonicautomotive.com by clicking on the "For Investors" tab and choosing "Webcasts & Presentations" on the right side of the monitor.

A conference call replay will be available one hour following the call for seven days and can be accessed by calling: 800-642-1687, International callers dial (706) 645-9291 Conference ID: 86991682

About Sonic Automotive

Sonic Automotive, Inc., a Fortune 500 company based in Charlotte, N.C., is the nation's third-largest automotive retailer, operating 140 franchises. Sonic can be reached on the web at www.sonicautomotive.com.

Included herein are forward-looking statements, including statements with respect to economic stabilization and business improvement, future success and impacts from the implementation of our various operational playbooks, future cash flow generation, growth opportunities and future debt retirement. There are many factors that affect management's views about future events and trends of the Company's business. These factors involve risk and uncertainties that could cause actual results or trends to differ materially from management's view, including without limitation, economic conditions in the markets in which we operate, new and used vehicle sales volume, the success of our operational strategies, the rate and timing of overall economic recovery or further decline and the risk factors described in the Company's annual report on Form 10-K for the year ending December 31, 2009 and the quarterly report on Form 10-Q for the quarter ending March 31, 2010. The Company does not undertake any obligation to update forward-looking information.
