Lightning eMotors and REV Group Subsidiary to Produce Electric Ambulances

LOVELAND, Colo.--(BUSINESS WIRE)-- Commercial vehicle manufacturers [Lightning eMotors](#) and [REV Group, Inc.](#) announce they are co-developing zero-emission, all-electric ambulances with Leader Emergency Vehicles™, a REV Group subsidiary. Available to government agencies, municipalities, commercial operators, hospitals, and non-profit organizations, delivery to customers is expected to be at the end of this calendar year.

“Electrification is reaching all different types of fleet vehicles, and ambulances are a logical next step,” said Tim Reeser, CEO of Lightning eMotors. “These zero-emission vehicles are powerful, smooth, and quiet, and drivers will love them. As a fully electric model, they

have no tailpipe emissions, so it’s a healthier choice for the air you breathe as well.”

The new Leader ambulances will be based on the fourth-generation Lightning Electric Transit Van from Lightning eMotors. Leader’s High Roof Transit van offers up to 105 kWh of battery capacity that can be charged via Level 2 AC charging or DC fast charging. This model is equipped with dual rear wheels providing a 10,360 lbs. gross vehicle weight rating (GVWR).

“REV Group’s vision is our continuous pursuit to improve the quality of life for our customers and communities,” said Rod Rushing, President and CEO of REV Group. “This pursuit includes our commitment to investing in innovative technology and leading in the electrification of commercial vehicles.”

The ambulance chassis will be electrified at Lightning eMotors’ Loveland, Colorado facility

and then built at Leader's facility in South El Monte, California.

About REV Group, Inc.

[REV Group](#)® is a leading designer and manufacturer of specialty vehicles and related aftermarket parts and services. We serve a diversified customer base, primarily in the United States, through three segments: Fire & Emergency, Commercial, and Recreation. We provide customized vehicle solutions for applications, including essential needs for public services (ambulances, fire apparatus, school buses, and transit buses), commercial infrastructure (terminal trucks and industrial sweepers) and consumer leisure (recreational vehicles). Our diverse portfolio is made up of well-established principal vehicle brands, including many of the most recognizable names within their industry. Several of our brands pioneered their specialty vehicle product categories and date back more than 50 years. REV Group trades on the NYSE under the symbol REVG. Investors-REVG

About Lightning eMotors

Lightning eMotors has been providing specialized and sustainable fleet solutions since 2009, deploying complete zero-emission-vehicle (ZEV) solutions for commercial fleets since 2018 – including Class 3 cargo and passenger vans, Class 4 and 5 cargo vans and shuttle buses, Class 6 work trucks, school buses, Class 7 city buses, and Class A motor coaches. The Lightning eMotors team designs, engineers, customizes and manufactures zero-emission vehicles to support the wide array of fleet customer needs including school buses and ambulances, with a full suite of telematics, analytics and charging solutions to simplify the buying and ownership experience and maximize uptime and energy efficiency.
