## ABOUT VYANT BIO, INC.

Vyant Bio, Inc. is emerging as an advanced biotechnology drug discovery company. Vyant Bio is rapidly identifying small and large molecule therapeutics to treat central nervous system (“CNS”) and oncology-related disorders. With leading-edge capabilities in data science, biological and chemical sciences, engineering, and regulatory affairs, Vyant Bio capitalizes on *in silico*, human cell-derived *in vitro* disease models, and *in vivo* discovery technologies to identify novel biological targets and valuable therapeutics for patients. Vyant Bio operates two wholly-owned subsidiaries, StemoniX and *vivo*Pharm. Formerly known as Cancer Genetics, Inc., the Company’s name was changed to Vyant Bio, Inc. in March 2021.

Vyant Bio is headquartered in the US, with offices in Europe, and Australia.

StemoniX is empowering the discovery of new medicines through the convergence of novel human biology and software technologies. StemoniX develops and manufactures high-density, at-scale human induced pluripotent stem cell-derived neural and cardiac screening platforms for drug discovery and development. Predictive, accurate, and consistent, these human models enable scientists to conduct research quickly and economically with improved outcomes in a simplified workflow. Through collaborations with drug discovery organizations, StemoniX tests compounds in-house, creates new cell-based disease models, and operationalizes custom human iPSC-derived disease models at large scale for high-throughput screening. With leading-edge human iPSC technologies and data science, StemoniX is helping global institutions bring the most promising medicines to patients.

*vivoPharm* offers proprietary preclinical test systems supporting clinical diagnostic offerings at early stages valued by the pharmaceutical industry, biotechnology companies, and academic research centers. *vivoPharm* is focused on precision and translational medicine to drive drug discovery and novel therapies. *vivoPharm* specializes in conducting studies tailored to guide drug development, starting from compound libraries and ending with a comprehensive set of *in vitro* and *in vivo* data and reports, as needed for Investigational New Drug filings. *vivoPharm* operates in The Association for Assessment and Accreditation of Laboratory Animal Care International (AAALAC) accredited and GLP compliant audited facilities.
