Bristow Advances Global Sustainability Efforts in Latest Report

- Rescued 470 people during 2,870 missions by UK Search and Rescue (SAR) team
- Signed letter of intent to take part in an international test arena for zero- and low-emission aviation in Norway
- Achieved ISO 14001 certification at Ireland operations
- Strengthened fleet with modernization efforts by securing agreement to purchase 10 Leonardo AW189 super-medium helicopters, with options for 10 more, supporting reduced CO₂ emissions and sustainable aviation fuel (SAF) usage

HOUSTON, May 20, 2025 – Bristow Group Inc. (NYSE: VTOL), the leading global provider of innovative and sustainable vertical flight solutions, today released its 2024 Sustainability Report, reaffirming Bristow’s commitment to responsible growth.

“Our mission continues to prioritize safety, sustainability, and positive community impact,” said Bristow President and CEO Chris Bradshaw. “The achievements highlighted in this report reflect our dedicated efforts to prioritize sustainable business practices, uphold safety as our highest priority, and strengthen our connections with communities where we operate and call home.”

Bristow’s ongoing emphasis on safety yielded a 32 percent reduction in lost workdays in 2024, underscoring the Company’s top core value and highest operational priority. The UK SAR team continued its vital work, rescuing 470 people in 2,870 missions, and, along with its other government SAR mandates in the Netherlands, the Dutch Caribbean, and the Falkland Islands, the Company expanded SAR capabilities into Ireland, further demonstrating Bristow’s critical role in community safety.

In support of pursuing sustainable aviation through the Company’s strategic fleet renewal plans, Bristow secured an agreement to acquire 10 Leonardo AW189 helicopters, with options for 10 more, providing environmental benefits, including lower CO₂ emissions and compatibility with sustainable aviation fuel (SAF). Additionally, Bristow Norway signed a letter of intent to participate in Norway’s pioneering international test arena for zero- and low-emission aviation, setting the stage for future aviation innovation.

Ethical leadership remained a focal point with the implementation of a new human rights supplier commitment process in Norway, establishing clear expectations and greater transparency, scheduled to expand globally in 2025. Bristow also proactively adopted a generative AI policy to responsibly leverage emerging technology while safeguarding ethical standards and intellectual property.

About Bristow Group

Bristow Group Inc. is the leading global provider of innovative and sustainable vertical flight solutions. Bristow primarily provides aviation services to a broad base of offshore energy companies and government entities. Our aviation services include personnel transportation, search and rescue ("SAR"), medevac, fixed-wing transportation, unmanned systems and ad hoc helicopter services. Our business is comprised of three operating segments: Offshore Energy Services, Government Services and Other Services. Our energy customers charter our helicopters primarily to transport personnel to, from and between onshore bases and offshore production platforms, drilling rigs and other installations. Our government customers primarily outsource SAR activities whereby we operate specialized helicopters and provide highly trained personnel. Our other services include fixed wing transportation services through a regional airline and dry-leasing aircraft to third-party operators in support of other industries and geographic markets.

Bristow currently has customers in Australia, Brazil, Canada, Chile, the Dutch Caribbean, the Falkland Islands, India, Ireland, Mexico, the Netherlands, Nigeria, Norway, Spain, Suriname, Trinidad, the United Kingdom ("UK") and the United States ("U.S.").
