

# Pacific Ethanol Reports Fourth Quarter and Full-Year 2018 Results

SACRAMENTO, Calif., March 12, 2019 (GLOBE NEWSWIRE) -- **Pacific Ethanol, Inc. (NASDAQ: PEIX)**, a leading producer and marketer of low-carbon renewable fuels and highquality alcohol products in the United States, reported its financial results for the three and twelve months ended December 31, 2018.

Neil Koehler, Pacific Ethanol's president and CEO, stated: "We remain confident that the long-term demand for ethanol, both domestically and internationally, will continue to grow, and that market conditions will improve. Focused on delivering long-term sustainable growth and profitability for our investors, we have built a broad and diversified footprint through organic growth and acquisitions.

"Our financial results in the fourth quarter were negatively impacted by market conditions, regulatory uncertainty and trade disputes, which compressed production margins to record lows. Margins have improved in the first quarter but have further to go to restore profitability. In light of this and the fact that the intrinsic value of Pacific Ethanol's platform is not fully recognized by our public equity valuation, we have initiated a strategic realignment of our business to improve liquidity and reduce our debt.

"Our vision remains to be a leading producer and marketer of low carbon renewable fuels and high-value feed and alcohol products. We have great assets and a strong team to fulfill this vision," concluded Koehler.

## Use of Non-GAAP Measures

Management believes that certain financial measures not in accordance with generally accepted accounting principles ("GAAP") are useful measures of operations. The company defines Adjusted EBITDA as unaudited net income (loss) attributed to Pacific Ethanol before interest expense, provision (benefit) for income taxes, asset impairments, purchase accounting adjustments, fair value adjustments, and depreciation and amortization expense. A table is provided at the end of this release that provides a reconciliation of Adjusted EBITDA to its most directly comparable GAAP measure. Management provides this non-GAAP measure so that investors will have the same financial information that management uses, which may assist investors in properly assessing the company's performance on a period-over-period basis. Adjusted EBITDA is not a measure of financial performance under GAAP and should not be considered as an alternative to net income (loss) or any other measure of performance under GAAP, or to cash flows from operating, investing or financing activities as an indicator of cash flows or as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and you should not consider this measure in isolation or as a substitute for analysis of the company's results as reported under GAAP.

## About Pacific Ethanol, Inc.

Pacific Ethanol, Inc. (PEIX) is a leading producer and marketer of low-carbon renewable fuels and high-quality alcohol products in the United States. Pacific Ethanol owns and operates nine production facilities, four in the Western states of California, Oregon and Idaho, and five in the Midwestern states of Illinois and Nebraska. Statements and information contained in this communication that refer to or include Pacific Ethanol's estimated or anticipated future results or other non-historical expressions of fact are forward-looking statements that reflect Pacific Ethanol's current perspective of existing trends and information as of the date of the communication. Forward looking statements generally will be accompanied by words such as "anticipate," "believe," "plan," "could," "should," "estimate," "expect," "forecast," "outlook," "guidance," "intend," "may," "might," "will," "possible," "potential," "predict," "project," or other similar words, phrases or expressions. Such forward-looking statements include, but are not limited to, statements concerning future market fundamentals and conditions, including the supply of and domestic and international demand for ethanol and co-products; future margins; and Pacific Ethanol's plans, objectives, expectations and intentions. It is important to note that Pacific Ethanol's plans, objectives, expectations and intentions are not predictions of actual performance. Actual results may differ materially from Pacific Ethanol's current expectations depending upon a number of factors affecting Pacific Ethanol's business. These factors include, among others, adverse economic and market conditions, including for ethanol and its co-products and high-guality alcohols; export conditions and international demand for ethanol and coproducts; fluctuations in the price of and demand for oil and gasoline; raw material costs, including ethanol production input costs, such as corn and natural gas. These factors also include, among others, the inherent uncertainty associated with financial and other projections; the anticipated size of the markets and continued demand for Pacific Ethanol's products; the impact of competitive products and pricing; the risks and uncertainties normally incident to the ethanol production and marketing industries; changes in generally accepted accounting principles; successful compliance with governmental regulations applicable to Pacific Ethanol's facilities, products and/or businesses; changes in laws, regulations and governmental policies; the loss of key senior management or staff; and other events, factors and risks previously and from time to time disclosed in Pacific Ethanol's filings with the Securities and Exchange Commission including, specifically, those factors set forth in the "Risk Factors" section contained in Pacific Ethanol's Form 10-Q filed with the Securities and Exchange Commission on November 2, 2018.
