

QuickLogic Signs Mostyle, New Distributor in Taiwan with Extensive Sensor, AI and IoT Experience

- *Excellent strategic alignment with complementary product line card*
- *Design-in focus and extensive technical experience in sensor, AI and IoT applications*
- *Key customer relationships in QuickLogic's target market segments in Taiwan*

Sunnyvale, CA – May 21, 2019 – QuickLogic Corporation (NASDAQ: QUIK), a developer of ultra-low power multi-core voice-enabled SoCs, embedded FPGA IP, and Endpoint AI solutions, today announced that it has signed on Mostyle Corporation, a new distributor in Taiwan. Mostyle's current line card and extensive technical experience in sensor, AI, and IoT-based applications make them an excellent strategic fit for QuickLogic. In addition, Mostyle already has key customer relationships in QuickLogic's target market segments across Taiwan.

"Mostyle's focus, in terms of products, applications, and target market segments, is well aligned with QuickLogic's strategy," said Brian Faith, president and CEO at QuickLogic Corporation. "Their deep technical knowledge and extensive applications experience will enable them to come up to speed quickly and begin contributing to our design win pipeline in Taiwan – a key region for sensor, AI and IoT-based designs."

"QuickLogic has excellent products and development tools, which are a great fit for our customer base," said Wilfred Hsiao, sales VP at Mostyle Corporation. "Specifically, we see many opportunities to add AI to IoT applications for equipment fault detection, monitoring the needs of the elderly, and security for public infrastructure and transportation systems. We look forward to working closely with QuickLogic to serve these applications and a number of others."

Effective Date

The distribution agreement between QuickLogic and Mostyle is effective immediately.

About Mostyle

Mostyle Corporation has been a professional distributor who delivers diversified Sensors and Sensor Applications that are developed by own company for more than 15 years. The Sensors and Sensor Solutions cover the field of applications in Industry, Medical, IIoT, AIoT and Automotive. Mostyle provides Sensors, Sensor design, or Sensor module to end customers in order to have on time system developing for end products. In the division system of production and marketing operation, Mostyle provides promotion, technology consultation, products solution projects and other additional services. In order to guard and support the relationship of collective cooperation and success among all suppliers and customers, Mostyle has set up several selling locations in Taiwan, Hong Kong and China.

About QuickLogic

QuickLogic Corporation (NASDAQ: QUIK) is a fabless semiconductor company that develops low power, multi-core semiconductor platforms and Intellectual Property (IP) for Artificial Intelligence (AI), voice and sensor processing. The solutions include embedded FPGA IP (eFPGA) for hardware acceleration and pre-processing, and heterogeneous multi-core SoCs that integrate eFPGA with other processors and peripherals. The Analytics Toolkit from our recently acquired wholly-owned subsidiary, SensiML Corporation, completes the end-to-end solution with accurate sensor algorithms using AI technology. The full range of platforms, software tools and eFPGA IP enables the practical and efficient adoption of AI, voice and sensor processing across mobile, wearable, hearable, consumer, industrial, edge and endpoint IoT.
