Medical Groups Give CareCloud Top Ratings in Two 2019 Healthcare Industry Reports

MIAMI--(BUSINESS WIRE)-- [CareCloud](#), the platform for high-growth medical groups, announced today that its electronic health record (EHR) and practice management (PM) solutions were awarded top rankings from clients captured in reports by both Software Advice and Black Book Research.

[CareCloud Charts](#) was named a FrontRunner for Electronic Medical Records software in the Enterprise Vendor category by Software Advice and as the #1 Client Rated Ambulatory EHR by Black Book Research. [CareCloud Central](#) was named #1 Client Rated Physician Practice Management Solution by Black Book Research, which also presented CareCloud with the 2019 Highest Client Satisfaction award at the HIMSS 2019 conference.

“The fact that our clients continue to give us top ratings for usability and satisfaction within this highly competitive market speaks volumes about the value they place in both our technology and in our team,” said Ken Comée, CareCloud CEO. “Our focus on making the most advanced cloud computing technology easy to use has become a hallmark of our platform and will continue to guide our efforts across our entire integrated portfolio of solutions.”

Designed to help companies evaluate which software products may be right for them, FrontRunners evaluated 240 EMRs across small and enterprise healthcare technology vendors. CareCloud’s Charts [scored](#) among the top 3 highest-rated EMR solutions in the enterprise market. CareCloud also received this FrontRunners designation in [2018](#).

One of the largest independent user opinion polls of its kind in healthcare, [Black Book](#)™ annually evaluates leading health care/medical software and outsourcing service providers across 18 operational excellence key performance indicators completely from the perspective of the client experience. CareCloud Charts also was named by Black Book as a [top EMR vendor in 2017](#), including earning the No. 1 ranking for family medicine.
