MCW Energy Group Closes Tranche of Financing and Announces Shares for Debt Transactions

TORONTO, ONTARIO -- (Marketwired) -- 06/07/16 -- **MCW Energy Group Limited** ("**MCW**") (TSX VENTURE:MCW)(OTCQX:MCWEF), a Canadian holding company involved in the development of environmentally-friendly oil sands technologies and the production of oil from Utah's vast oil sands deposits, announces it has raised gross proceeds of CAD\$75,000 through the issuance of 714,285 common shares at a price of \$0.105 per share. All shares issued pursuant to the non-brokered private placement are subject to a four month hold period. The proceeds of the financing will be used for working capital. Including the shares issued pursuant to the financing there are 130,894,154 common shares issued and outstanding.

In addition, MCW has entered into two shares for debt agreements, pursuant to which MCW will issue 1,932,345 common shares in satisfaction of CAD\$217,388.92 of indebtedness currently owed to two service providers. MCW determined to satisfy the indebtedness with common shares in order to preserve its cash for use on its extraction technology in Asphalt Ridge, Utah, and for working capital. The shares will be issued upon acceptance by the TSX Venture Exchange. The common shares issued in satisfaction of the indebtedness will be subject to a four month hold period from the date of issuance.

About MCW Energy Group Limited

MCW Energy Group Limited is focused on value creation via the development and implementation of (i) proprietary, environmentally-friendly oil sands extraction technologies and remedial tailings ponds project solutions, (ii) expanding production capacities of its now operational oil sands project in Asphalt Ridge, Utah, and (iii) the formulation of worldwide joint ventures and the licensing of oil sand opportunities with private and governmental resource entities within countries possessing extensive oil sands/shale deposits. MCW's management team is comprised of individuals who have extensive knowledge in both conventional and unconventional oil and gas projects and production, both in upstream and downstream industry sectors.
