Aqua Metals to Participate in 6th Annual ROTH New Industrials Corporate Access Day on December 11, 2018

MCCARRAN, Nev., Nov. 28, 2018 (GLOBE NEWSWIRE) -- Aqua Metals, Inc. (NASDAQ: AQMS), which is reinventing lead recycling with its AquaRefining™ technology, today announced that management is scheduled to participate in the 6th Annual ROTH New Industrials Corporate Access Day on December 11, 2018 taking place at the Lotte New York Palace Hotel in New York City.

Members of the management team will be available for one-on-one and small group meetings with institutional investors throughout the course of the day. The event is by invitation only. To arrange a one-on-one meeting, please contact your ROTH sales representative at (949) 720-5700 or e-mail: registration@roth.com.

About Aqua Metals

Aqua Metals, Inc. (NASDAQ:AQMS) is reinventing lead recycling with its patented AquaRefining™ technology. Unlike smelting, AquaRefining is a room temperature, water-based process that emits less pollution. The modular systems are intended to allow the Company to vastly reduce environmental impact and scale lead acid recycling production capacity by licensing the AquaRefining technology to partners. This would meet growing demand for lead to power new applications including stop/start automobile batteries which complement the vehicle's main battery, Internet data centers, alternative energy applications including solar, wind, and grid scale storage. Aqua Metals is based in Alameda, California, and has built its first recycling facility in Nevada's Tahoe Reno Industrial Complex. To learn more, please visit www.aquametals.com.
