Evolv Unveils New Software Features, Including Integrated Tablet Management for Express and eXpedite

WALTHAM, Mass.--(BUSINESS WIRE)-- Evolv Technologies Holdings, Inc. (NASDAQ: EVLV), a leading security technology company pioneering AI-based solutions designed to help create safer experiences, is pleased to announce the latest software updates to its security solutions. This includes updates to screening solutions Evolv Express® and Evolv eXpedite™ as well as the analytics platforms available through MyEvolv & Evolv Insights®.

Evolv is constantly working to increase system performance and enhance the user experience to meet the dynamic challenges faced by security professionals and venue operators. Evolv customers benefit from regular software updates pushed to over 1,000 customers worldwide, which includes a fleet of more than 7,000 Express systems. This latest release introduces a suite of new features designed to enhance security operations, streamline alert resolution, and provide deeper insights for security operators into potential threats.

Evolv provides a cloud-connected, AI-driven security solution that goes beyond hardware, supporting the end-to-end screening experience with Express and eXpedite. Express is purpose-built to efficiently screen people for concealed threats, while eXpedite is designed to screen bags with speed and accuracy. These systems empower security teams with real-time visuals and tools to resolve alerts confidently. Evolv offers a connected, layered approach that supports security teams throughout the entire screening process.

With over three billion people screened globally, Evolv continues to innovate in security technology by working closely with customers to understand their challenges and to develop solutions. This commitment to continuous improvement is reflected in the release of software versions Evolv Express 9.0, Evolv eXpedite 1.2, and MyEvolv Portal & Evolv Insights 6.0, which introduce new features designed to enhance security operations.

Key Features of Releases:

- **Integrated Evolv Tablet:** Now manage alerts from both Evolv Express and Evolv eXpedite on a *single tablet*, improving efficiency and ease while providing a unified view of potential threats.
- **Express Detection Boost:** A new setting available on select sensitivity settings that's designed to support increased detection of firearms with minimal impact to the nuisance alarm rate.
- **Expanded Alert Tags:** Increased number of alert tag options to 39, allowing for more precise categorization of threats and non-threats, enhancing weapons detection reporting.
- **Sensitivity Tuning Steps:** Allows venues to select a specific threat performance profile tailored to their operational needs, providing flexibility and additional control with

adjustable percentage increments between select sensitivity settings.

- **Real Time Service Monitoring:** Helps identify Evolv Express scanner issues as they happen. When a system error is found, the system sends the information to Evolv's support platform. If needed, a support case is created through that system, no extra steps required from the customer.

"The expanded alert tags are a big win for us," said Michelle Ryan, Senior Security Director, New York-Presbyterian. "With more options to categorize threats, our reporting is more precise, and it helps us improve our security measures."

"The new sensitivity tuning steps in Evolv Express® give our team greater flexibility to adjust detection settings to fit our unique security needs," said Chris Pearson, Director of School Safety, Harnett County Schools. "We appreciate having more control to fine-tune sensitivity, helping us optimize our operations for different environments."

"At Evolv, innovation means never settling. With every release, we challenge ourselves to do better, for our customers, for safety, and for the future," said John Kedzierski, CEO & President of Evolv Technology.

Evolv Technology remains committed to advancing security solutions that empower organizations to create safer environments with greater efficiency. Please connect with your Evolv Sales Associate to explore these features further.

About Evolv Technology:

[Evolv \(NASDAQ: EVLV\)](#) is designed to transform human security by helping organizations detect potential threats, mitigate risk, and enhance safety using AI-powered security solutions with robust insights. Our technology has helped to create efficient and positive security screening experiences for the world's most iconic venues and companies as well as schools, hospitals, and public spaces. Evolv's mission is to create a safer world to live, work, learn, and play. Evolv's advanced systems have scanned more than 3 billion people since 2019. Evolv Express® has been awarded the U.S. Department of Homeland Security (DHS) SAFETY Act Designation as a Qualified Anti-Terrorism Technology (QATT) and Evolv eXpedite™ has been awarded the Safety Act Developmental Testing and Evaluation Designation. Evolv and its products have been awarded numerous awards, including the 2024 Security Industry Association (SIA) New Products and Solutions (NPS) Award in the Law Enforcement/Public Safety/Guarding Systems category, as well as the 2024 Sport Business Journal's (SBJ) awards for "Best In Fan Experience Technology" and "Best In Sports Technology". Evolv®, Evolv Express®, Evolv Insights®, Evolv Visual Gun Detection™, Evolv eXpedite™, and Evolv Eva™ are registered trademarks or trademarks of Evolv Technologies Holdings, Inc. in the United States and other jurisdictions. Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Evolv Technology intends for such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. All statements in this press release, other than that are historical facts, are statements that could be deemed forward-looking statements, including statements made by the President and Chief Executive Officer, as well

as statements regarding the Company's strategy, financial and operational performance and growth, and efforts to create value for stakeholders. Forward-looking statements involve known and unknown risks, uncertainties and other important factors that may cause actual results and actions to be materially different from any future results or actions expressed or implied by the forward-looking statements, including, but not limited to, the factors discussed under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2024 filed with the SEC on April 28, 2025, as well as any such factors that may be updated from time to time in our other filings with the SEC. The forward-looking statements in this press release are based upon information available to us as of the date hereof, and while we believe such information forms a reasonable basis for such statements, it may be limited or incomplete, and our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all potentially available relevant information. These statements are inherently uncertain, and investors are cautioned not to unduly rely upon these statements.

Except as required by applicable law, we do not plan to publicly update or revise any forward-looking statements contained in this document, whether as a result of any new information, future events or otherwise.
