# Nauticus Robotics to Join Russell Microcap® Index

## Nauticus to join index widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies

HOUSTON, May 25, 2023 (GLOBE NEWSWIRE) -- [Nauticus Robotics, Inc.](#) ("Nauticus" or the "Company") (NASDAQ: KITT), a developer of ocean robots using artificial intelligence for data collection and intervention services, is set to join the Russell Microcap® Index at the conclusion of the 2023 Russell indexes annual reconstitution, effective after the US market opens on June 26, according to a preliminary list of additions posted May 19.

Membership in the Russell Microcap® Index, which remains in place for one year, means automatic inclusion in the appropriate growth and value style indexes. FTSE Russell determines membership for its Russell indexes primarily by objective, market-capitalization rankings and style attributes.

"We are pleased to have earned our spot on one of the esteemed Russell indexes, widely cited as one of the most important performance benchmarks for emerging companies in the U.S.," said Nicolaus Radford, founder and CEO of Nauticus. "This is an important milestone for us as we continue to build momentum to create the most impactful ocean robotics company and serves as a validation of our performance and growth potential."

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. Approximately \$12.1 trillion in assets are benchmarked against Russell's US indexes. Russell indexes are part of FTSE Russell, a leading global index provider.

### About Nauticus

[Nauticus](#) Robotics, Inc. is a developer of autonomous robots using artificial intelligence for data collection and intervention services for the ocean industries. Nauticus' robotic systems and services are delivered to commercial and government-facing customers through a Robotics-as-a-Service (RaaS) business model and direct product sales for both hardware platforms and software licenses. Besides a standalone service offering and products, Nauticus' approach to ocean robotics has also resulted in the development of a range of technology products for retrofitting/upgrading legacy systems and other third-party vehicle platforms. Nauticus provides customers with the necessary data collection, analytics, and subsea manipulation capabilities to support and maintain assets while reducing their operational footprint, operating cost, and greenhouse gas emissions to improve offshore

health, safety, and environmental exposure.
