CUPERTINO, Calif., Nov. 30, 2020 /CNW/ - (TSXV: BWLK) (OTCQB: BWLKF)

Boardwalktech Software Corp ("Boardwalktech" or the "Company"), the leading Digital Ledger platform and enterprise software applications company, is pleased to announce it has executed a new license with a major European based consumer products company (the "Client") to implement its proprietary Boardwalk Digital Ledger Platform.

Boardwalktech's platform is being used to manage forecasting and planning for products sold globally. This is the first application utilizing Boardwalktech's Digital Ledger technology for this client with planned expansion of additional licensed applications over the next year.

"Today's announcement reflects a continuing trend by large enterprises to upgrade their collaborative digital data management solutions, that has only been expedited as a result of the global pandemic. Boardwalktech's proprietary platform is uniquely suited to help companies transform information management in the enterprise with minimal disruption," said Andrew T. Duncan, Chief Executive Officer of Boardwalktech. "An organization of this size with a world-wide distribution and sales network has an unparalleled amount of complexity in its supply chain. In this customer's case, eliminating latencies and inefficiencies that may exist in their supply chain was of paramount importance, particularly when considering the financial costs and risks associated with supply chain delays. Using the Boardwalk Digital Ledger Platform will improve collaboration and connections across numerous teams and time zones around the world, allowing for faster information flow and knowledge exchange, resulting in better, more informed decisions that improve sales and operational results."
