Management Commentary

"In 2021 CorEnergy overcame the pandemic-related challenges of 2020 and we are now positioned for the future. We were able to transition our business model to a low-cost structure; owning and operating energy pipelines and storage assets. We optimized our capital structure for the benefit of our stockholders, internalized our REIT manager, and positioned our business for future growth. The benefits of these efforts were apparent in the third and fourth quarter run rate, as we established our new baseline in volumes and revenue that demonstrated our ability to fully cover our dividend expectations," said Dave Schulte, Chief Executive Officer. "We expect to continue to earn and pay our \$0.20 annualized common dividend in 2022, with potential for modest long-term growth. We published our inaugural ESG report, confirming that we have always operated responsibly and are positioned to grow in the new energy transition marketplace as well as through incremental acquisitions."
