First quarter 2015 funds from operations ("FFO") and Core FFO increased \$3.4 million and \$3.6 million year-over-year from first quarter of 2014, respectively, primarily a result of an additional \$9.4 million of NOI from the acquisition of 88 self storage properties acquired between April 1, 2014 and March 31, 2015, partially offset by increases in interest and general and administrative expenses.

Net loss decreased by less than \$0.1 million year-over-year from first quarter of 2014. The decrease in net loss was primarily due to an increase in NOI resulting from additional self storage properties we acquired during 2014 and 2015, offset by increases in depreciation and amortization, interest expense, and general and administrative expenses.

(1) Distributions to subordinated performance unitholders classified as noncontrolling interests are included as an adjustment to eliminate the noncontrolling interests' share of FFO for purposes of calculating FFO attributable to common shareholders and OP and DownREIT OP unitholders. Amounts represent distributions declared for subordinated performance unitholders and DownREIT subordinated performance unitholders for the periods presented. These distributions were declared and paid to unitholders of record as of March 31, 2015 and 2014 during the periods subsequent to March 31, 2015 and 2014, respectively, and therefore the amounts are not reflected in the historical financial statements for the periods presented.

- (2) We combine OP units and DownREIT OP units with common shares because, after the applicable lock-out periods, OP units in our operating partnership are redeemable for cash or, at our option, exchangeable for common shares on a one-for-one basis and DownREIT OP units are also redeemable for cash or, at our option, exchangeable for OP units in our operating partnership on a one-for-one basis, subject to certain adjustments in each case. Subordinated performance units, DownREIT subordinated performance units, and LTIP units may also, under certain circumstances, be convertible into or exchangeable for common shares (or other units that are convertible into or exchangeable for common shares). Subordinated performance units and DownREIT subordinated units have been excluded from the calculations of FFO and Core FFO per share and unit as their effect is anti-dilutive. LTIP units have been excluded from the calculations of FFO and Core FFO per share and unit because such units did not participate in distributions prior to our Company's initial public offering.
- (3) Amount for the three months March 31, 2014 includes 2,060,711 OP units issued in connection with the contribution of 65 self storage properties on April 1, 2014 by SecurCare Portfolio Holdings, LLC and SecurCare Value Properties, Ltd. (collectively, "NSA Predecessor"), entities whose principal owner is the Company's chief executive officer. For financial reporting purposes, NSA Predecessor contributions are reported as a reorganization of entities under common control whereby the contributed self storage properties are included in the Company's results of operations for the three months March 31, 2014 and have been recorded in the Company's financial statements at NSA Predecessor's depreciated historical cost basis.
