This will be a live, interactive online event where investors are invited to ask the company questions in real-time - both in the presentation hall as well as the company's "virtual trade booth." If attendees are not able to join the event live on the day of the conference, an on-demand archive will be available for 90 days.

It is recommended that investors pre-register to save time and receive event updates.

About AxoGen, Inc.

AxoGen (OTCBB: AXGN) is a regenerative medicine company with a portfolio of proprietary products and technologies for peripheral nerve reconstruction and regeneration. Every day people suffer traumatic injuries or undergo surgical procedures that impact the function of their peripheral nerves. Peripheral nerves provide the pathways for both motor and sensory signals throughout the body and their damage can result in the loss of function and feeling. In order to improve surgical reconstruction and regeneration of peripheral nerves, AxoGen has developed and licensed patented and patent-pending technologies, which are used in its portfolio of products. This portfolio includes Avance® Nerve Graft, which AxoGen believes is the first and only commercially available allograft nerve for bridging nerve discontinuities (a gap created when the nerve is severed). AxoGen's portfolio also includes AxoGuard® Nerve Connector, a coaptation aid allowing for close approximation of severed nerves, and AxoGuard® Nerve Protector that protects nerves during the body's healing process after surgery. AxoGen is bringing the science of nerve repair to life with thousands of surgical implants of AxoGen products performed in hospitals and surgery centers across the United States, including military hospitals serving U.S. service men and women.

AxoGen (formerly known as LecTec Corporation) is the parent of its wholly owned operating subsidiary, AxoGen Corporation. AxoGen's principal executive office and operations are located in Alachua, FL.
