John Gibson, President and Chief Executive Officer, commented, “We posted solid financial results for the second quarter, with growth of 7% in total revenue and 9% in diluted earnings per share, driven by our strong execution and comprehensive suite of solutions.”

“As businesses struggle with both inflationary pressures and acquiring talent in a continuing tight labor market, we are well positioned to help companies find and retain employees, drive operational efficiency, and address complex Human Resource (“HR”) issues. We continue to leverage our innovative HR technology and advisory solutions to help employers navigate this challenging environment. We’ve helped more than 50,000 of our clients secure available government funding through the Employee Retention Tax Credit program.”

## Second Quarter Business Highlights

Service revenue increased to \$1.2 billion in the second quarter, an increase of 7% over the prior year period. Highlights compared to the corresponding prior year period are as follows:

Management Solutions revenue was \$895.3 million, an increase of 8%, a result of the following factors:

- Growth in the number of clients and clients' employees served for human capital management ("HCM") and additional worksite employees for HR Solutions;
- Expanded revenue per client resulting from price realization and higher product attachment, including increased demand for HR Solutions, retirement, and time and attendance solutions; and
- Continued demand for HCM ancillary services.

Professional Employer Organization ("PEO") and Insurance Solutions revenue was \$273.3 million, an increase of 4%, led by growth in the number of average worksite employees.

Total expenses increased 7% to \$718.0 million, due to higher compensation related costs driven by increases in headcount and wage rates.

Operating income grew 7% to \$472.3 million compared to the prior year period. Operating margin (operating income as a percentage of total revenue) of 39.7% was even compared to the prior year period.

Our effective income tax rate was 24.2% compared to 24.1% for the prior year period. Both periods included the recognition of excess tax benefits related to employee stock-based compensation payments.

Diluted earnings per share and adjusted diluted earnings per share<sup>(1)</sup> increased 9% to 0.99 per share for the second quarter compared to the prior year period.

(1)Adjusted diluted earnings per share is not a U.S. GAAP measure. Please refer to the "Non-GAAP Financial Measures" section on page 3 of this press release for a discussion of non-GAAP measures.

## **Fiscal Year-To-Date Business Highlights**

- Operating income increased 10% to \$967.9 million.
- Diluted earnings per share increased 11% to \$2.04 per share. Adjusted diluted earnings per share<sup>(1)</sup> increased 12% to \$2.02 per share.

(1)Adjusted diluted earnings per share is not a U.S. GAAP measure. Please refer to the "Non-GAAP Financial Measures" section on page 3 of this press release for a discussion of non-GAAP measures.

- (1) Excess tax benefits related to employee stock-based compensation payments recognized in income taxes. This item is subject to volatility and will vary based on employee decisions on exercising employee stock options and fluctuations in our stock price, neither of which is within the control of management.
- (2) The calculation of the impact of non-GAAP adjustments on diluted earnings per share is performed on each line independently. The table may not add down by +/- \$0.01 due to rounding.

In addition to reporting net income and diluted earnings per share, which are U.S. GAAP measures, we present adjusted net income, adjusted diluted earnings per share, and earnings before interest, taxes, depreciation, and amortization (“EBITDA”), which are non-GAAP measures. We believe these additional measures are indicators of our core business operations’ performance period over period. Adjusted net income, adjusted diluted earnings per share, and EBITDA are not calculated through the application of U.S. GAAP and are not required forms of disclosure by the Securities and Exchange Commission (“SEC”). As such, they should not be considered a substitute for the U.S. GAAP measures of net income and diluted earnings per share, and, therefore, they should not be used in isolation but in conjunction with the U.S. GAAP measures. The use of any non-GAAP measure may produce results that vary from the U.S. GAAP measure and may not be comparable to a similarly defined non-GAAP measure used by other companies.

## **Business Outlook**
