LOS ANGELES, Oct. 22, 2024 (GLOBE NEWSWIRE) -- **Hanmi Financial Corporation (NASDAQ: H AFC, or “Hanmi”)**, the parent company of Hanmi Bank (the “Bank”), today reported financial results for the third quarter of 2024.

Net income for the third quarter of 2024 was \$14.9 million, or \$0.49 per diluted share, compared with \$14.5 million, or \$0.48 per diluted share, for the second quarter of 2024. ## CEO Commentary

“Our third quarter results were strong, with solid performance across all key operating metrics in the third quarter,” said Bonnie Lee, President and Chief Executive Officer of Hanmi. “Net interest margin increased five basis points to 2.74% driven by higher yields on interest-earning assets and lower funding costs. Loans grew by 2% driven by a 27% increase in loan production and total deposits were up led by 5% growth in noninterest-bearing demand deposits. These results reflect the continued success of our relationship banking model and our portfolio diversification strategy.”

“During the quarter, we remained focused on our disciplined credit administration practices and are pleased to report that we resolved several criticized and nonaccrual loans and recognized a recovery on a previously charged-off loan. We also proactively moved three loans to the special mention category to monitor them more closely. These loans are current, and we are confident they are well protected.”

“Hanmi is well-positioned for a strong close to 2024 with a robust balance sheet, ample liquidity, healthy capital ratios, and a solid loan pipeline. Our team remains committed to delivering the solutions our customers need and results our shareholders expect,” concluded Lee.

## Third Quarter 2024 Highlights:

- Third quarter net income was \$14.9 million, or \$0.49 per diluted share, compared with \$14.5 million, or \$0.48 per diluted share for the second quarter of 2024. - Loans receivable were \$6.26 billion at September 30, 2024, up 1.3% from the end of the second quarter of 2024, driven by a 27% increase in loan production to \$347.8 million with a weighted average interest rate of 7.92%.
- Deposits were \$6.40 billion at September 30, 2024, up 1.2% from the end of the second quarter of 2024; noninterest-bearing demand deposits were 32.0% of total deposits. During the quarter, noninterest bearing demand deposits grew 4.7%, while

The allowance for credit losses increased \$1.4 million to \$69.2 million at September 30, 2024, or 1.11% of loans. For the third quarter, net loan charge-offs of \$0.9 million included a \$1.1 million charge-off on a nonaccrual loan transferred to held-for-sale and a \$1.7 million recovery of a nonaccrual loan.
- Asset quality included several notable actions: nonaccrual loans fell 18.8% to \$15.2 million and included pay-offs of \$6.8 million while criticized assets increased, with downgrades to special mention of three loans totaling \$129.8 million, offset by the move to the held-for-sale nonaccrual loan category of the previously identified \$28.3 million completed construction loan, upgrades of \$6.1 million, and additional loan pay-offs of \$1.3 million. Subsequent to the end of the third quarter, the Bank completed the sale of the nonaccrual loan.

## Asset Quality

Loans 30 to 89 days past due and still accruing were 0.24% of loans at the end of the third quarter of 2024, compared with 0.22% at the end of the prior quarter.

Criticized loans totaled \$160.0 million at September 30, 2024, up from \$70.9 million at the end of the second quarter of 2024.

During the third quarter, the Bank moved the previously identified \$28.3 million completed construction loan for a memory-care and assisted-living facility from the special mention category to the held-for-sale nonaccrual category. In addition, the Bank recognized a \$1.1 million charge-off on this loan. Subsequent to the end of the third quarter, the Bank completed the sale of this nonaccrual loan.

Also, during the third quarter, the Bank downgraded to special mention two commercial real estate loans in the hospitality industry for \$109.7 million and a commercial and industrial loan in the health care industry for \$20.1 million. Pay-offs of \$8.1 million decreased criticized loans (and classified loans), while upgrades of \$6.1 million also decreased criticized loans (and special mention loans). Offsetting the decrease in classified loans were additions of \$2.5 million.

Nonperforming loans were \$15.5 million at September 30, 2024, down from \$19.2 million at the end of the prior quarter. The decrease primarily reflects pay-offs of \$6.8 million, where the pay-off of a previously identified \$3.9 million nonperforming loan resulted in a \$1.7 million recovery. Offsetting the decrease were additions of \$3.1 million.

Nonperforming assets were \$16.3 million at the end of the third quarter of 2024, down from \$20.0 million at the end of the prior quarter. As a percentage of total assets, nonperforming assets were 0.21% at September 30, 2024, and 0.26% at the end of the prior quarter.

Gross charge-offs for the third quarter of 2024 were \$3.8 million, compared with \$2.3 million for the preceding quarter. Charge-offs included \$1.1 million on the previously identified \$28.3 million completed construction loan. Recoveries of previously charged-off loans were \$2.9

million in the third quarter of 2024, and included a \$1.7 million recovery on a previously identified \$3.9 million commercial loan in the health care industry. As a result, net charge-offs were \$0.9 million for the third quarter of 2024, compared with net charge-offs of \$1.8 million for the prior quarter.

The allowance for credit losses was \$69.2 million at September 30, 2024, compared with \$67.7 million at June 30, 2024. Specific allowances for loans decreased \$1.6 million, while the allowance for quantitative and qualitative considerations increased \$3.1 million. The ratio of the allowance for credit losses to loans was 1.11% at September 30, 2024 and 1.10% at June 30, 2024.

## Non-GAAP Financial Measures

### Tangible Common Equity to Tangible Assets Ratio

Tangible common equity to tangible assets ratio is supplemental financial information determined by a method other than in accordance with U.S. generally accepted accounting principles (“GAAP”). This non-GAAP measure is used by management in the analysis of Hanmi’s capital strength. Tangible common equity is calculated by subtracting goodwill and other intangible assets from stockholders’ equity. Banking and financial institution regulators also exclude goodwill and other intangible assets from stockholders’ equity when assessing the capital adequacy of a financial institution. Management believes the presentation of this financial measure excluding the impact of these items provides useful supplemental information that is essential to a proper understanding of the capital strength of Hanmi. This disclosure should not be viewed as a substitute for results determined in accordance with GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies.

The following table reconciles this non-GAAP performance measure to the GAAP performance measure for the periods indicated:
