WisdomTree Announces Third Quarter 2017 Results

\$0.06 diluted EPS for the quarter

Declares \$0.08 quarterly dividend

NEW YORK, Oct. 27, 2017 (GLOBE NEWSWIRE) -- WisdomTree Investments, Inc. (NASDAQ:WETF), an exchange-traded fund (“ETF”) and exchange-traded product (“ETP”) sponsor and asset manager today reported net income of \$8.0 million or \$0.06 diluted EPS in the third quarter. This compares to net income of \$8.0 million or \$0.06 diluted EPS in the third quarter of last year and net income of \$12.1 million or \$0.09 diluted EPS in the second quarter of 2017 (as adjusted, \$7.8 million¹ or \$0.06 diluted EPS¹).

WisdomTree CEO and President Jonathan Steinberg said, “The pace of change in the wealth management industry continues to accelerate. During the quarter, we made further progress building out our suite of technology-driven solutions designed to help financial intermediaries modernize their practices, generate better outcomes for their clients, operate more efficiently and drive growth in their franchises. The combination of these value-added technology solutions and our broad offering of differentiated, strong-performing and competitively-priced ETFs should allow WisdomTree to continue to foster deeper relationships with a broader range of financial intermediaries and generate long-term value for shareholders.”

Third Quarter Financial Discussion

Revenues

Advisory fees of \$57.6 million increased 11.7% from the third quarter of 2016 due to an increase in our average global AUM, partly offset by lower average U.S. advisory fees due to a change in product mix. Our average global AUM increased primarily due to market appreciation of our U.S. listed ETFs and net inflows into certain of our U.S. listed ETFs (including within our U.S. equity, international equity, emerging markets and alternative strategy ETFs), European listed ETPs and Canadian listed ETFs. These increases were partly offset by outflows primarily in our two largest U.S. listed ETFs. The changes in product mix resulted in our average U.S. advisory fees for our U.S. listed ETFs declining from 0.51%

for the third quarter of 2016 to 0.50% for the third quarter of 2017. Advisory fees increased 2.6% from the second quarter of 2017 on higher average global AUM primarily due to market appreciation, partly offset by net outflows. Our average U.S. advisory fees were unchanged from the second quarter of 2017.

A settlement gain of \$6.9 million was recorded during the second quarter of 2017 representing the fair value of the preferred stock of Tradeworx, Inc. ("Tradeworx") that the Company received in connection with the resolution of a dispute regarding its ownership stake in Tradeworx.

Other income increased 74.6% from the third quarter of 2016 to \$0.4 million primarily due to higher interest earned on our investments. Other income was essentially unchanged from the second quarter of 2017.

Margins

Gross margin for our U.S. Business segment, which is U.S. advisory fee revenue less U.S. fund management and administration expenses and U.S. third-party sharing arrangements, was 82.0%¹ in the third quarter of 2017 as compared to 80.8%¹ in the third quarter of 2016 and 82.4%¹ in the second quarter of 2017. The increase from the third quarter of 2016 was primarily due to higher revenues. The decrease from the second quarter of 2017 was due to higher expenses partly offset by higher advisory fee revenue.

Pre-tax margin was 26.7% in the third quarter of 2017 as compared to 27.5% in the third quarter of 2016 and 35.0% in the second quarter of 2017 (as adjusted 27.1%¹). Pre-tax margin for our U.S. Business segment was 33.4% in the third quarter of 2017 as compared to 34.1% in the third quarter of 2016 and 41.5% in the second quarter of 2017 (as adjusted, 34.0%¹).

Expenses

Total expenses were \$42.5 million for the third quarter of 2017, up 13.1% from the third quarter of 2016 and up 3.1% from the second quarter of 2017.

- Compensation and benefits expense increased 27.2% from the third quarter of 2016 and 5.8% from the second quarter of 2017 to \$19.5 million primarily due to higher accrued incentive compensation and other headcount related expenses. Headcount of our U.S. Business segment was 165, 166 and 159 and our International Business segment was 43, 46 and 43 at September 30, 2017, June 30, 2017 and September 30, 2016, respectively.
- Fund management and administration expense increased 4.7% from the third quarter of 2016 and 7.4% from the second quarter of 2017 to \$10.9 million primarily attributable to higher average global AUM partly offset by a lower number of U.S. listed ETFs. We had 87 U.S. listed ETFs, 85 European ETPs and 11 Canadian ETFs at the end of the quarter.
- Marketing and advertising expense decreased 7.9% from the third quarter of 2016 and 13.4% from the second quarter of 2017 to \$3.3 million primarily due to lower levels of

advertising related activities within our U.S. Business segment.

- Sales and business development expense increased 17.6% from the third quarter of 2016 and 6.7% from the second quarter of 2017 to \$3.6 million primarily due to higher spending on sales related activities within our U.S. Business segment.
- Professional and consulting fees were unchanged from the third quarter of 2016. This expense decreased 15.2% from the second quarter of 2017 to \$1.0 million primarily due to lower professional fees within our U.S. Business Segment.
- Our estimated effective income tax rate for the third quarter of 2017 of 48.5% resulted in income tax expense of \$7.5 million. Our tax rate differs from the federal statutory tax rate of 35% primarily due to a valuation allowance on foreign net operating losses and state and local income tax expense.

Nine Month Results

Total revenues increased 4.4% to \$176.0 million primarily due to the settlement gain of \$6.9 million recorded during the second quarter of 2017 and higher interest earned on our investments. Advisory fees were slightly lower despite our higher average global AUM due to a decline in our average U.S. ETF advisory fees resulting from changes in product mix.

Total expenses increased 1.5% to \$123.5 million. This increase was primarily due to higher compensation expense due to higher accrued incentive compensation and other headcount related expenses partly offset by the acquisition payment expense of \$6.7 million recorded in the prior year.

Balance Sheet

As of September 30, 2017, the Company had total assets of \$247.6 million which consisted primarily of cash and cash equivalents of \$70.2 million, securities owned of \$68.4 million, securities held-to-maturity of \$23.3 million, investments of \$31.9 million and accounts receivable of \$19.7 million. There were approximately 136.9 million shares of common stock outstanding as of September 30, 2017. Fully diluted weighted average shares outstanding were 135.9 million for the quarter.

Quarterly Dividend

The Company's Board of Directors declared a quarterly cash dividend of \$0.08 per share of the Company's common stock. The dividend will be paid on November 22, 2017 to stockholders of record as of the close of business on November 8, 2017.

Conference Call

Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- our ability to develop new products and services;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully expand our business into non-U.S. markets;
- competition in our business; and
- the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

- Net outflows in our two largest ETFs – the WisdomTree Europe Hedged Equity Fund and the WisdomTree Japan Hedged Equity Fund – have had, and in the future could continue to have, a negative impact on our revenues.
- Declining prices of securities can adversely affect our business by reducing the market

value of the assets we manage or causing customers to sell their fund shares and trigger redemptions.

- Fluctuations in the amount and mix of our AUM may negatively impact revenues and operating margins.
- We derive a substantial portion of our revenues from a limited number of products, and as a result, our operating results are particularly exposed to the performance of these products and our ability to maintain the AUM of these products, as well as investor sentiment toward investing in the funds' strategies and market-specific and political and economic risk.
- Much of our AUM is held in our U.S. listed ETFs that invest in foreign securities and we therefore have substantial exposure to foreign market conditions and are subject to foreign currency exchange rate risks.
- Many of our ETPs have a limited track record, and poor investment performance could cause our revenues to decline.
- We depend on third parties to provide many critical services to operate our business and our ETPs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm our customers.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.

Non-GAAP Financial Measurements

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. The non-GAAP financial measurements contained in this release include:

- *Gross margin and gross margin percentage (U.S. Business segment).* We disclose our gross margin and gross margin percentage for our U.S. Business segment separately from the start up stage of our international businesses (Europe and Canada) to allow investors to better understand and track the performance and operating efficiency of our core U.S. operations, which make up the vast majority of our operating and financial results. We disclose U.S. Business segment gross margin, which we define as U.S. advisory fees less U.S. fund management and administration expenses and U.S. third-party sharing arrangements, and U.S. Business segment gross margin percentage as non-GAAP financial measurements because we believe they provide investors with a consistent way to analyze the amount we retain after paying third party service providers to operate our ETPs and third party marketing agents whose fees are associated with our AUM level. Management tracks gross margin and gross margin percentage to analyze the profitability of our products.
- *Consolidated and U.S. Business segment operating results and pre-tax margin for the second quarter of 2017 excluding a pre-tax gain of \$6.9 million (or \$4.3 million after-tax) associated with the settlement of a dispute with a third party.* We exclude this gain when analyzing our results as it is a one-time, non-recurring item and not core to our operating business.
