Amprius Technologies Announces Date for First Quarter 2023 Results and Business Updates

FREMONT, Calif.--(BUSINESS WIRE)-- [Amprius Technologies, Inc.](#) ("Amprius"), (NYSE: **AMPX**), a leader in next-generation lithium-ion batteries with its Silicon Anode Platform, will hold a conference call and webcast on Wednesday, May 10, 2023 at 5:00 p.m. Eastern time (2:00 p.m. Pacific time) to discuss its financial results for the first quarter ended March 31, 2023. Financial results will be issued in a press release prior to the call.

Amprius management will host the presentation, followed by a question-and-answer period.

Date: Wednesday, May 10, 2023
Time: 5:00 p.m. ET (2:00 p.m. PT)
Toll-Free Number: 866-682-6100
International Number: 862-298-0702
Webcast: [Register and Join](#)

Please call the conference telephone number 5-10 minutes prior to the start time. An operator will register your name and organization. If you have any difficulty connecting with the conference call, please contact Gateway Group at 949-574-3860.

The conference call will be broadcast simultaneously and available for webcast replay [here](#).

About Amprius Technologies, Inc.

Amprius Technologies, Inc. is a leading manufacturer of high-energy and high-power lithium-ion batteries producing the industry's highest energy density cells. The Company's corporate headquarters is in Fremont, California where it maintains an R&D lab and a pilot manufacturing facility for the fabrication of silicon nanowire anodes and cells. To serve significant customer demand for its high-performance silicon anode lithium-ion batteries, Amprius recently signed a letter of intent for an approximately 774,000 square foot facility in Brighton, Colorado that initially provides a potential of up to 5 gigawatt-hours (GWh) manufacturing capacity.

Amprius' commercially available batteries deliver up to 450 Wh/kg and 1,150 Wh/L, the industry's highest known energy density cells available on the market today. Based on Amprius' current level of battery performance and pilot production, the Company will be able to use its proprietary anode technology to deliver battery cells that contain energy density levels that approach 2x the performance of current commercially available graphite cells. For additional information, please visit [amprius.com](#). Also, see the Company's [LinkedIn](#) and

[Twitter](#) pages.
