Life Time Reports First Quarter Fiscal 2023 Financial Results

- Revenue increased by 30.2% to \$510.9 million from \$392.3 million in the first quarter of 2022
- Net income increased to \$27.5 million from a net loss of \$38.0 million in the first quarter of 2022
- Adjusted EBITDA increased by 195.8% to \$120.1 million from \$40.6 million in the first quarter of 2022
- Life Time raises full year fiscal 2023 Adjusted EBITDA guidance by \$30 million to \$470-\$490 million

CHANHASSEN, Minn., April 25, 2023 /PRNewswire/ -- Life Time Group Holdings, Inc. ("Life Time," "we," "our," "us," or the "Company") (NYSE: LTH) today announced its financial results for the fiscal first quarter ended March 31, 2023.

Bahram Akradi, Founder, Chairman and CEO, stated: "We are very pleased with our start to fiscal 2023. We delivered record levels of revenue and Adjusted EBITDA for the first quarter. We also delivered sequential revenue, profit and margin improvements over our strong fourth quarter 2022 performance. All of our strategic initiatives, together with our rewiring of the Company, are delivering increasing revenue and higher margins. We are successfully opening new clubs, with faster ramping, in desirable locations across the country. With the solid momentum in our business, we are raising our full year Adjusted EBITDA guidance to \$470 to \$490 million."

NM - Not meaningful

(1) The three months ended March 31, 2023 and 2022 include non-cash share-based compensation expense of \$4.7 million and \$19.9 million, respectively, and non-recurring one-time items of \$0.3 million and \$0.5 million, respectively.

First Quarter 2023 Information

- Revenue increased due to strong growth in membership dues and in-center revenues, which included the continued ramp of our centers and higher member utilization of our in-center offerings.
- Net center memberships increased by approximately 39,000, which exceeded the approximately 25,000 increase in net center memberships during the first quarter of 2022. Total memberships, which includes our digital on-hold memberships, increased approximately 9% to 813,500.
- Center operations expenses increased primarily due to additional staffing requirements to support increased usage in existing and new centers, expanded programming, increased labor costs and utility cost inflation.
- General, administrative and marketing expenses declined primarily due to higher non-cash share-based compensation expense in the prior year period and the benefits from our operational efficiency efforts that we experienced in the current year period.
- Net income included tax-effected one-time net benefits of \$8.5 million, primarily from a \$5.1 million gain on sale-leasebacks and a \$3.6 million gain related to the sale of two triathlon events, and also included \$4.2 million of tax-effected non-cash share-based compensation expense. Net loss in the prior year period included tax-effected one-time net benefits of \$26.1 million, primarily related to a gain on sale-leasebacks, and also included \$19.9 million of tax-effected non-cash share-based compensation expense. Excluding the impact of these net benefits and expenses, net income improved by \$67.3 million.
- Net income and Adjusted EBITDA improved significantly as we experienced greater flow through of our increased revenue and benefited from our ongoing margin expansion efforts.

New Center Openings

- The Company opened three new centers in the first quarter of 2023.
- As of March 31, 2023 we operated a total of 164 centers.
- The Company plans to open seven additional new centers in 2023, resulting in a total of 10 new centers for the year.

Cash Flow Highlights

- As of March 31, 2023 the Company had total cash and cash equivalents of \$35.3 million, and \$85.0 million in outstanding borrowings under its \$475 million revolving credit facility.
- Net cash provided by operating activities totaled \$74.3 million for the quarter ended March 31, 2023, compared to \$9.1 million in the quarter ended March 31, 2022.
- Free cash flow before growth capital expenditures totaled \$26.6 million for the quarter ended March 31, 2023, compared to \$(35.3) million for the quarter ended March 31, 2022.

- Growth capital expenditures, net of construction reimbursements, center maintenance capital expenditures and corporate capital expenditures totaled \$123.0 million, \$32.9 million and \$14.9 million, respectively, for the quarter ended March 31, 2023, compared to \$66.4 million, \$16.4 million and \$27.9 million, respectively, for the quarter ended March 31, 2022.

Sale-Leasebacks

- The Company completed a transaction for one property for gross proceeds of approximately \$33.0 million in the first quarter of 2023 and a second transaction for one property for gross proceeds of approximately \$45 million in April 2023. The final property from the Company's previously announced letters of intent is expected to be completed by September 30, 2023 for gross proceeds of approximately \$45 million.
- The Company remains on track to complete \$300 million in sale-leaseback transactions in 2023.

Use of Non-GAAP Financial Measures and Key Performance Indicators

This press release includes certain financial measures that are not presented in accordance with generally accepted accounting principles in the United States ("GAAP"), including Adjusted EBITDA, net income excluding net benefits and expenses, and free cash flow before growth capital expenditures. These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should be considered in addition to, and not as a substitute for or superior to, net income (loss) as a measure of financial performance or any other performance measure derived in accordance with GAAP, and should not be construed as an inference that the Company's future results will be unaffected by unusual or non-recurring items. In addition, these non-GAAP financial measures should be read in conjunction with the Company's financial statements prepared in accordance with GAAP. The reconciliations of the Company's non-GAAP financial measures to the corresponding GAAP measures should be carefully evaluated.

Adjusted EBITDA is defined as net income (loss) before interest expense, net, provision for (benefit from) income taxes and depreciation and amortization, excluding the impact of share-based compensation expense, (gain) loss on sale-leaseback transactions, capital transaction costs, legal settlements, asset impairment, severance and other items that are not indicative of the Company's ongoing operations, including incremental costs related to COVID-19. Free cash flow before growth capital expenditures is defined as net cash provided by (used in) operating activities less center maintenance capital expenditures and corporate capital expenditures.

The Company presents these non-GAAP financial measures because management believes that these measures assist investors and analysts in comparing the Company's operating performance across reporting periods on a consistent basis by excluding items that management does not believe are indicative of the Company's ongoing operating

performance. Investors are encouraged to evaluate these adjustments and the reasons the Company considers them appropriate for supplemental analysis. In evaluating the non-GAAP financial measures, investors should be aware that, in the future, the Company may incur expenses that are the same as or similar to some of the adjustments in the Company's presentation of its non-GAAP financial measures. There can be no assurance that the Company will not modify the presentation of non-GAAP financial measures in future periods, and any such modification may be material. In addition, the Company's non-GAAP financial measures may not be comparable to similarly titled measures used by other companies in the Company's industry or across different industries.

The non-GAAP financial measures have limitations as analytical tools, and investors should not consider these measures in isolation or as substitutes for analysis of the Company's results as reported under GAAP.

Please note that the Company has not provided the most directly comparable GAAP financial measure, or a quantitative reconciliation thereto, for the Adjusted EBITDA forward-looking guidance for 2023 included in this press release in reliance on the unreasonable efforts exception provided under Item 10(e)(1)(i)(B) of Regulation S-K. Providing the most directly comparable GAAP financial measure, or a quantitative reconciliation thereto, cannot be done without unreasonable effort due to the inherent uncertainty and difficulty in predicting certain non-cash, material and/or non-recurring expenses or benefits; legal settlements or other matters; and certain tax positions. The variability of these items could have an unpredictable, and potentially significant, impact on our future GAAP financial results.

The Company includes a center, for comparable center revenue purposes, beginning on the first day of the 13th full calendar month of the center's operation, in order to assess the center's growth rate after one year of operation.

Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of federal securities regulations. Forward-looking statements in this press release include, but are not limited to, the Company's plans, strategies and prospects, both business and financial, including its financial outlook for the second quarter and full year 2023, growth, cost efficiencies and margin expansion, improvements to its balance sheet and leverage, capital expenditures, consumer demand, industry and economic trends, expected number of new center openings and successful signings and closings of sale-leaseback transactions (including the amount, pricing and timing thereof). These statements are based on the beliefs and assumptions of the Company's management. Forward-looking statements are inherently subject to risks, uncertainties and assumptions. Generally, statements that are not historical facts, including statements concerning the Company's possible or assumed future actions, business strategies, events or results of operations, are forward-looking statements. These statements may be preceded by, followed by or include the words "believe," "expect," "anticipate," "intend," "plan," "estimate" or similar expressions. In addition, any statements or information that refer to expectations, beliefs, plans, projections, objectives, performance or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking.

Factors that could cause actual results to differ materially from those forward-looking

statements included in this press release include, but are not limited to, risks relating to our business operations and competitive and economic environment, risks relating to our brand, risks relating to the growth of our business, risks relating to our technological operations, risks relating to our capital structure and lease obligations, risks relating to our human capital, risks relating to legal compliance and risk management and risks relating to ownership of our common stock and the other important factors discussed under the caption "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2022, filed with the Securities and Exchange Commission (the "SEC") on March 8, 2023, (File No. 001-40887), as such factors may be updated from time to time in the Company's other filings with the SEC, which are accessible on the SEC's website at www.sec.gov. These and other important factors could cause actual results to differ materially from those indicated by the forward-looking statements made in this press release. Any forward-looking statement that the Company makes in this press release speaks only as of the date of such statement. Except as required by law, the Company does not have any obligation to update or revise, or to publicly announce any update or revision to, any of the forward-looking statements, whether as a result of new information, future events or otherwise.

- (1) We define Average Center revenue per center membership as Center revenue less Digital On-hold revenue, divided by the average number of Center memberships for the period, where the average number of Center memberships for the period is an average derived from dividing the sum of the total Center memberships outstanding at the beginning of the period and at the end of each month during the period by one plus the number of months in each period.
- (2) We measure the results of our centers based on how long each center has been open as of the most recent measurement period. We include a center, for comparable center revenue purposes, beginning on the first day of the 13th full calendar month of the center's operation, in order to assess the center's growth rate after one year of operation.
- (3) Net new center openings is calculated as the number of centers that opened for the first time to members during the period, less any centers that closed during the period. Total centers (end of period) is the number of centers operational as of the last day of the period.
- (4) Total center square footage (end of period) reflects the aggregate fitness square footage, which we use as a metric for evaluating the efficiencies of a center as of the end of the period. The square footage figures exclude areas used for tennis courts, outdoor swimming pools, outdoor play areas and stand-alone Work, Sport and Swim locations. These figures are approximations.
- (5) Net income (loss) margin is calculated as net income (loss) divided by total revenue.
- (6) We present Adjusted EBITDA as a supplemental measure of our performance. We define Adjusted EBITDA as net income (loss) before interest expense, net, provision for (benefit from) income taxes and depreciation and amortization, excluding the impact of share-based compensation expense, (gain) loss on sale-leaseback transactions, capital transaction costs, legal settlements, asset impairment, severance and other items that are not indicative of our ongoing operations, including incremental costs related to COVID-19.

Adjusted EBITDA margin is calculated as Adjusted EBITDA divided by total revenue.

Adjusted EBITDA

\$	120,102	\$	40,626
----	---------	----	--------

- Share-based compensation expense recognized during the three months ended March 31, 2023 was associated with stock options, restricted stock units, our employee stock purchase plan ("ESPP") that launched on December 1, 2022, and liability classified awards related to our short-term incentive plan for our executive officers in 2023. Share-based compensation expense recognized during the three months ended March 31, 2022 was associated with stock options, restricted stock and restricted stock units. The majority of this expense was associated with awards that were fully vested and became exercisable on April 4, 2022 in connection with the expiration of the lock-up period following our IPO.
- Represents the incremental expenses we recognized related to the COVID-19 pandemic. We adjust for these expenses as they do not represent expenses associated with our normal ongoing operations. We believe that adjusting for these expenses provides a more accurate and consistent representation of our actual operating performance from period to period. For the three months ended March 31, 2023 and 2022, COVID-19 related expenses primarily consisted of legal-related costs in pursuit of our claim against Zurich.
- We adjust for the impact of gains on the sale-leaseback of our properties as they do not reflect costs associated with our ongoing operations.
- Represents one-time costs related to capital transactions, including debt and equity offerings that are non-recurring in nature, but excluding direct costs related to the IPO that were netted against the proceeds of the IPO.
- (e) Includes costs associated with transactions that are unusual and non-recurring in nature.
- (7) Represents non-capital expenditures associated with opening new centers which are incurred prior to the commencement of a new center opening. The number of centers under construction or development, the types of centers and our costs associated with any particular center opening can vary significantly from period to period.
- (8) Reflects the non-cash portion of our annual GAAP operating lease expense that is greater or less than the cash operating lease payments. Non-cash rent expense for our open properties represents non-cash expense associated with properties that were operating at the end of each period presented. Non-cash rent expense for our properties under development represents non-cash expense associated with properties that are still under development at the end of each period presented.
- (9) Free cash flow before growth capital expenditures, a non-GAAP financial measure, is calculated as net cash provided by operating activities less center maintenance capital expenditures and corporate capital expenditures.

The following table provides a reconciliation from net cash provided by operating activities to free cash flow before growth capital expenditures (in thousands):
