UiPath Business Automation Platform Receives Widespread Industry Analyst Recognition

Recognized as a leader in robotic process automation, test automation, process mining, and low-code application development

LAS VEGAS--(BUSINESS WIRE)-- **UIPATH FORWARD 5** – UiPath (NYSE: PATH), a leading [enterprise automation](#) software company, today announced it has received a record number of industry analyst recognitions year-to-date for its UiPath Business Automation Platform.

The UiPath Business Automation Platform is an easy-to-use, scalable, and open platform that allows everyone – from RPA developers and testers to citizen developers and business end users – to collaborate and position automation squarely at the core of everyday work. With capabilities that support every phase of the automation lifecycle and deployment options that give organizations immediate management of their software robots, UiPath is bringing automation to enterprise workers by enabling them to both engage in the automation process and benefit from working alongside robots every day.

Highlights of industry analyst recognition for the UiPath Platform include:

- Positioned by Gartner, Inc. as a Leader in the **[2022 Gartner® Magic Quadrant™ for Robotic Process Automation](#)*** research report. UiPath was named a Leader for the fourth year in a row, and in this report UiPath was positioned highest for Ability to Execute and furthest for Completeness of Vision. According to Gartner Market Share Analysis: Robotic Process Automation, Worldwide, 2021, released in June 2022, "[UiPath is the] only vendor to grow its market share in 2021, from 28.5% in 2020 to 34.1% in 2021…."**
- For the third consecutive year, named a Process Mining Leader in the Technology Vendor Landscape, according to the **[Everest Group PEAK Matrix® for Process Mining Technology Vendors 2022](#)**. The Company was also recognized as a Star Performer, demonstrating the most year-over-year improvement on the PEAK Matrix®. UiPath Process Mining includes a robust set of more than 50 pre-built connectors to systems like SAP, Oracle, Salesforce, and ServiceNow to allow customers to gain insights into operations by creating corresponding process models.
- Positioned as a Leader in the **[IDC MarketScape: Worldwide Cloud Testing 2022 Vendor Assessment – Empowering Business Velocity](#)**.*** The report, which includes UiPath for the first time among traditional software quality tools, examines cloud testing adoption trends and their influence on organizational success through the development of secure, high-quality software.
- Named a Leader in **[The Forrester Wave™: Robotic Process Automation (RPA) In](#)**

China, Q3 2022. UiPath was one of 11 vendors evaluated in the inaugural report for China and received the highest possible scores in the product vision, innovation roadmap, general platform capabilities, and partner ecosystem criteria. The Forrester report recognized UiPath as "a good fit for enterprises with demanding automation needs for support and governance," and states that, "UiPath speeds up local market expansion with its global strengths." UiPath is also recognized as a leader in RPA in Forrester's evaluation, The Forrester Wave™: Robotic Process Automation, Q1 2021.

"We believe UiPath will be a leader in automation, artificial intelligence, and machine learning, which all companies will embrace over time," said UiPath Co-CEO Robert Enslin. "That's why we are dedicated to innovating our UiPath Business Automation Platform, driving our market segmentation, and delivering world-class customer experiences."

About IDC MarketScape

IDC MarketScape vendor assessment model is designed to provide an overview of the competitive fitness of ICT (information and communications technology) suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of IT and telecommunications vendors can be meaningfully compared. The framework also provides technology buyers with a 360-degree assessment of the strengths and weaknesses of current and prospective vendors.

About UiPath

UiPath has a vision to deliver the Fully Automated Enterprise™, one where companies use automation to unlock their greatest potential. UiPath offers an end-to-end platform for automation, combining the leading Robotic Process Automation (RPA) solution with a full suite of capabilities that enable every organization to rapidly scale digital business operations.
