RENNOVA CHIEF EXECUTIVE OFFICER SEAMUS LAGAN JOINS STOCK DAY FOR BUSINESS UPDATE

WEST PALM BEACH, Fla., July 01, 2019 (GLOBE NEWSWIRE) -- Rennova Health, Inc. (OTC: RNVA), (OTC: RNVAW) ("Rennova" or the "Company"), a vertically integrated provider of industry-leading diagnostics and supportive software solutions to healthcare providers that acquired Jellico Community Hospital, its third rural hospital in Tennessee, at the beginning of March 2019, announces that Rennova CEO and President of the Company, Seamus Lagan, joined Stock Day host Everett Jolly for a business update.

Jolly began the interview by asking Lagan when he expects the 2018 financials to be completed. Lagan explained that changes in management, as well as increased business operations, have delayed the financials from being completed. However, the Company is on the way to completing their 2018 audit and expects to be fully compliant and up-to-date by mid-August.

Jolly then asked about the Company's rural hospital model and their most recent acquisition. Lagan explained that the Company's business model is incredibly effective and shared his excitement for the growing opportunities provided by rural communities. He also shared that the more recent acquisition has progressed smoothly, although the Company's previous acquisition presented more of a challenge. While transitioning billing services for the second company, from the seller to a new billing company in December 2018, an inaccurate pricing list was uploaded into the billing system at the facility. This resulted in a few setbacks to cash flow and put financial strain on all of the Company's facilities. However, corrective action was implemented, and the Company is eager to put this difficult period behind it.

Lagan also shared that the Company is very confident in the addition of their third business, which is expected to continue its previous history of \$1 million in revenue per month. He further explained, "We're just in the final processes of the change of ownership, so we haven't started receiving any collections yet." However, he shared that the Company can expect to see these collections in the near future.

Jolly then asked Lagan about the Company's goals for the remaining quarters in 2019. Lagan stated, "The rest of this year will be a consolidation of the current business operations." He explained that the Company will keep their focus on the stabilization and integration of their businesses, while also increasing management capabilities to improve upon their existing business model. He also added that one of the Company's main ambitions is to be cash-flow positive by the end of 2019.

To close the interview, Lagan shared his excitement for the future of the Company despite experiencing a few challenges during its second acquisition. "This has been a difficult

period,” stated Lagan. He added, “we have a very different business plan and opportunity than we had 12-24 months ago.” He also shared his excitement for the release of the Company’s 2018 financials, “We really look forward to getting those numbers out there and letting people see what we’ve achieved.”
