Huntsman's Pori, Finland Facility Experiences Fire

THE WOODLANDS, Texas, Jan. 31, 2017 /PRNewswire/ -- A fire started January 30 at Huntsman Corporation's (NYSE: HUN) titanium dioxide manufacturing facility in Pori, Finland. All Huntsman associates at the site have been accounted for and there were no injuries. The fire brigade responded quickly and extinguished the fire.

Pori has a capacity of 130,000 metric tons, which represents approximately 15% of Huntsman's total titanium dioxide capacity and approximately 10% of total European demand. The site is insured for property damage as well as earnings losses. Huntsman is committed to repairing the facility as quickly as possible to ensure that customers can continue to receive the quality products offered by our Pori site.

The ongoing process to separate the Pigments and Additives business from Huntsman is proceeding.

About Huntsman:

Huntsman Corporation is a publicly traded global manufacturer and marketer of differentiated chemicals with 2015 revenues of more than \$10 billion. Our chemical product number in the thousands and are sold worldwide to manufacturers serving a broad and diverse range of consumer and industrial end markets.
