Stratasys Inc., Minneapolis, manufactures office-based rapid prototyping and manufacturing systems and 3D printers; and offers rapid prototyping and manufacturing parts services. According to Wohlers Report 2006, Stratasys supplied 34 percent of all systems installed worldwide in 2005, making it the unit market leader. Stratasys patented the rapid prototyping process known as fused deposition modeling (FDM). The process creates functional models directly from any 3D CAD program using ABS plastic, polycarbonate, and PPSF. The company holds 175 granted or pending rapid prototyping patents globally. Stratasys products are used in the aerospace, defense, automotive, medical, education, electronic, and consumer product industries. The company's systems are also used for rapid manufacturing and rapid tooling applications.
