Stratasys Inc., Minneapolis, manufactures prototyping and direct digital manufacturing systems and 3D printers, and it offers prototype and part manufacturing services. According to Wohlers Report 2007, Stratasys supplied 41 percent of all systems installed worldwide in 2006, making it the unit market leader, for the fifth consecutive year. Stratasys owns the rapid prototyping process known as fused deposition modeling (FDM). The process creates functional prototypes and end-use parts directly from any 3D CAD program using ABS plastic, polycarbonate, PPSF, and blends. The company holds over 180 granted or pending rapid prototyping patents globally. Stratasys products are used in the aerospace, defense, automotive, medical, education, electronic, and consumer product industries.
