Volato Launches Integrated App Personalizing the Private Aviation Experience

*Customer-designed app scales Volato operations for enhanced customer experiences:
offers pricing, booking, and real-time data, integrated with Volato Mission Control*

ATLANTA--(BUSINESS WIRE)-- Volato Group, Inc. (NYSE American: SOAR) ("Volato"), a leader in private aviation and the largest HondaJet operator in the world, today introduced its new mobile app. The app is designed to personalize the travel experience for all Volato customers, including fractional owners, Insider members, and charter clients.

The Volato app adapts to everyone's needs for a uniquely tailored journey. Features include streamlined flight booking, ground transportation, catering, and access to exclusive discount programs offered through Volato's growing network of partners. Deposit program customers can conveniently view all financial transactions within the app. For fractional owners, the app goes a step further. It provides a dynamic, multimedia presentation that displays real-time information about their aircraft, including location, flight history, maintenance schedules, and charter hours contributing to monthly revenue yield based on their ownership percentage.

"Our Volato mobile app was built based on extensive customer feedback and testing, around the simple notion of giving our customers what they've asked for in the easiest and fastest way possible," said Steve Drucker, Chief Technology Officer at Volato.

What Sets the Volato App Apart:

Personalized For Every User: The app intuitively presents information and features relevant to each user's travel preferences, making it easy for anyone to explore charter options, while offering customized information for fractional owners and Insider members.

Fractional Owner Transparency: Real-time insights on aircraft operations, location, flight history, maintenance data, and revenue yield.

A New Level of Service for Insider Members: Instant pricing, exclusive deals, last-minute offers, and easy access to membership benefits eliminate the need to check with Reservations.

Ad-Hoc Charter Accessibility: Real-time, dynamic pricing simplifies the booking process for convenient luxury travel.

Powered by Mission Control: Integration with Volato's flight management system delivers unmatched efficiency and faster customer response times. It seamlessly integrates dynamic

pricing, contract signing, flight booking, customer support, fleet optimization, data reporting, and customer billing.

The app is now available for download in the [App Store](#) and [Google Play](#). Volato plans to continually enhance the app with regular updates, including HondaJet-specific features, reflecting its position as the world's largest HondaJet fleet operator.

About Volato:

Volato is a leader in private aviation, redefining luxury air travel through modern, efficient, and customer-designed solutions. Volato provides a fresh approach to fractional ownership, aircraft management, jet card, deposit, and charter programs, all powered by advanced, proprietary mission control technology. Volato's fractional programs uniquely offer flexible hours and a revenue share for owners across the world's largest fleet of HondaJets, which are optimized for missions of up to four passengers. For more information visit www.flyvolato.com.

All Volato Part 135 charter flights are operated by its DOT/FAA-authorized air carrier subsidiary (G C Aviation, Inc. d/b/a Volato) or by an approved vendor air carrier.
