# Safe Harbor

- Please note that in this presentation, we may discuss events or results that have not yet occurred or been realized, commonly referred to as forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by or on behalf of Platform Specialty Products Corporation (“Platform”). Such discussion and statements will often contain words as “expect,” “anticipate,” “believe,” “intend,” “plan” and “estimate,” and include statements regarding Platform’s earnings per share, expected or estimated revenue, the outlook for its markets and the demand for its products, estimated sales, segment earnings, net interest expense, income tax provision, restructuring and other charges, cash flows from operations, consistent profitable growth, free cash flow, future revenues and gross operating and adjusted EBITDA margin improvement requirement and expansion, organic net sales growth, bank debt covenants, the success of new product introductions, growth in costs and expenses, the impact of commodities and currencies and Platform’s ability to manage its risk in these areas, and the impact of acquisitions, divestitures, restructuring and other unusual items, including Platform’s ability to successfully integrate and obtain the anticipated results and synergies from its consummated and future acquisitions. These projections and statements are based on management's estimates and assumptions with respect to future events and financial performance, and are believed to be reasonable, though are inherently difficult to predict. Actual results could differ materially from those projected as a result of certain factors. A discussion of factors that could cause results to vary is included in Platform’s periodic and other reports filed with the Securities and Exchange Commission, including Platform’s annual report on Form 10-K for the fiscal year ended December 31, 2014. Platform undertakes no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.
- This presentation also contains non-GAAP financial measures. Pursuant to the requirements of Regulation G, a reconciliation of such non-GAAP financial measures to the most directly comparable GAAP financial measures is provided herein. These non-GAAP financial measures are provided because management of Platform uses such measures in monitoring and evaluating Platform’s ongoing financial results, as well as to reflect Platform’s acquisitions. Management believes these measures provide a more complete understanding of Platform’s operational results and a meaningful comparison of Platform’s performance between periods. These non-GAAP measures may not, however, reflect the actual financial results Platform would have achieved absent such acquisitions, and may not be indicative of the results that Platform would expect to recognize for future periods.
- These non-GAAP measures should be considered in addition to, not a substitute for, measures of financial performance prepared in accordance with GAAP.

## Platform As Adj. Financial Results Q1'15 vs. PY (Actual \$)

(in millions)	Q1 2015 Actual	Q1 2014 Actual	Prior Year Variance	
<b>Total Sales</b>	<b>\$534.8</b>	<b>\$183.7</b>	<b>\$ 351.1</b>	<b>191.1%</b>
