Company Overview
MaxLinear, Inc. makes multi-gig connectivity a reality through digital, high-performance analog and mixed-signal integrated circuits and software solutions. Our products enable next-generation products in diversified markets, including Broadband Access, Connectivity, Infrastructure, and Industrial and Multi-Market. We revolutionize how people connect - driving faster, smarter networks. You'll find MaxLinear products at the heart of technologies and devices all around you. With a focus on low power and efficiency, our engineering innovations...

Drive the 5G wireless infrastructure your mobile phone uses
- We enable data center, metro and long-haul optical interconnects that provide high-speed connectivity throughout the world.

Deliver 10Gbit connectivity to your home
- Our products allow you to download a 4K movie (~100Gigabites) in less than 30 seconds or stream around 1,700 movies simultaneously. And with our Wi-Fi connectivity, you'll be set for faster video streaming uploads, gaming performance and better mobile connectivity at home and even in stadium venues.

Power the Internet of Things (IoT)
- We make seamless communications possible among people, processes and things. Thermostats, kitchen appliances, power grids, building automation, manufacturing - even making Smart Cities possible

Enable robust and reliable communication
- Our products empower servers, Ethernet switches and routers, ATMs, and even gas pumps and point-of-sale card readers.

MaxLinear was founded in 2003 and is headquartered in Carlsbad, Calif.
