About Immunovant, Inc.

Immunovant, Inc. is a clinical-stage biopharmaceutical company dedicated to enabling normal lives for people with autoimmune diseases. As a leader in FcRn inhibitor technology, we are boldly developing innovative therapies for a range of debilitating autoimmune diseases with significant unmet patient needs. Our investigational compound, batoclimab, is a novel, fully human, monoclonal antibody targeting the neonatal Fc receptor (FcRn). Designed to be optimized as a simple, subcutaneous injection with dosing that can be tailored based on disease severity and stage, batoclimab may reduce immunoglobulin G (IgG) antibodies that cause inflammation and disease.
