# **Westell Announces Availability of the Kentrox Optima Management System® Version 11 and Mobile Applications for Download**

*Improving Intelligent Site Management from Virtually Anywhere*

AURORA, Ill.--(BUSINESS WIRE)-- Westell Technologies, Inc. (NASDAQ: WSTL), a global leader of intelligent site and outside plant solutions, announces the release of the Kentrox® Optima Management System version 11 and the download availability of the Optima mobile applications from the Apple® App Store and Google Store™.

Optima, an intelligent site management solution, improves a service provider's and tower operator's monitoring, management, and control of critical infrastructure. Sites such as cell sites, substations, tower sites, and remote communication huts and all its systems, such as power, environmental, security, and communications, can be managed, often without a site visit.

The release of Optima 11 adds the following new functionality:

- Support for the recently released Kentrox Remote RMC-700 site management device
- Support for native iOS and Android™ devices
- Enhanced reporting and wizards
- Support for Internet Explorer® 9 and 10

The patent pending Optima mobile applications are available for Optima 11.x users from virtually any iOS and Android device. Users can easily access site infrastructure data to remotely monitor the functionality of their networks. The generally available Optima mobile applications are available for download from the following locations:

- Google Play store: [www.westell.com/googleOptima](http://www.westell.com/googleOptima)
- Apple App Store: [www.westell.com/appleOptima](http://www.westell.com/appleOptima)

## **About Westell**

Westell Technologies, headquartered in Aurora, Illinois, is a global leader of intelligent site and outside plant solutions focused on the critical edge and access networks. The comprehensive solutions Westell provides enable service providers, industrial customers,
