One Stop Systems Expands Design, Manufacturing and Test Facilities

ESCONDIDO, Calif., Aug. 03, 2018 (GLOBE NEWSWIRE) -- One Stop Systems, Inc. (Nasdaq: OSS) has signed a six-year lease that expands its Escondido, CA headquarters by more than a third.

The expansion will add 6,121 square feet to the company's existing design, manufacturing and test facilities, bringing the total space to more than 24,000 square feet. OSS has been headquartered in Escondido since its founding in 1998.

"This strategic expansion of our Escondido facilities reflects our rapid growth and anticipated increase in design wins over the coming months," said CEO of OSS, Steve Cooper. "The larger facility also allows us to consolidate our San Diego operations, which we expect will further enhance efficiencies and lower our overall costs of operations."

Escondido Mayor, Sam Abed, commented: "As one of our city's most successful and fastest-growing companies, we are excited OSS will stay and expand in Escondido. Escondido and the [Innovate78](#) cities are fast becoming part of a thriving technology and innovation region, and OSS' growth is a big part of our success."

About One Stop Systems

One Stop Systems, Inc. (OSS) designs and manufactures high performance compute accelerators, flash storage arrays and customized servers for deep learning, AI, defense, finance and entertainment applications. OSS utilizes the power of PCI Express, the latest GPU accelerators and NVMe flash cards to build award-winning systems, including many industry firsts, for OEMs and government customers. The company's innovative hardware and Ion Accelerator Software offers exceptional performance and unparalleled scalability.
