Addressing the divisional results for the quarter, Mr. Gunter noted that:

- * Citrus prices have declined an estimated 28% during fiscal year 2008 from their prior year levels. For this reason, the Company expects profits from its citrus groves to be lower in fiscal year 2008 when compared with fiscal year 2007. Prices have declined in the Florida citrus industry due to an increasing supply of citrus as groves have recovered from the damages brought on by the hurricanes of 2004 and 2005.
- * Due to rising feed and fuel costs, cattle margins have eroded considerably, causing the Company to write down its cattle inventory by \$0.4 million, to its net realizable value.

On June 30, 2008, the Company received the final Settlement Agreement related to the audits of Alico for the tax years 2000 through 2004 from the Internal Revenue Service. The terms of the IRS settlement agreement generated an income tax benefit of \$5.2 million in the third quarter of fiscal year 2008.

On June 24, 2008 Florida Governor Charlie Crist announced that the South Florida Water Management District (SFWMD) was negotiating the purchase of the assets of United States Sugar Corporation (USSC). USSC (and its subsidiary Southern Gardens) is the Company's

largest customer. Under the terms of the initial proposal USSC will continue its operations for a transition period of six years. The Company is evaluating various options regarding sugarcane production, including alternative uses for the property if determined necessary or advantageous.

Effective June 30, 2008, the Company ceased operating its Alico Plant World facility. The Company is currently leasing the Plant World facilities to a commercial greenhouse operator and has also sold a portion of the equipment used to operate the greenhouse. The results of Alico Plant World's operations have been reported as discontinued operations.

Also effective as of June 30, 2008, the Company discontinued its participation in Alico-J&J, LLC a joint venture vegetable farm. The Company is currently working to dissolve the venture and distribute the assets equitably among the members.

The Company has begun dissolution of its Agri-Insurance subsidiary, which has the effect of dissolving the Alico-Agri partnership. The dissolutions will transfer the assets of the subsidiaries to Alico, Inc. The costs of dissolution are not expected to be material to the Company.
