Drive Shack Inc. Announces Fourth Quarter and Full Year 2020 Results and Preferred Stock Dividends for First Quarter 2021

Reports 2020 Fourth Quarter Net Income of \$9.9 Million and Positive Adjusted EBITDA of \$5.3 Million

NEW YORK--(BUSINESS WIRE)-- Drive Shack Inc. (the “Company”) (NYSE: DS), a leading owner and operator of golf-related leisure and entertainment businesses, today reported its financial results for the fourth quarter and full year ended December 31, 2020.

“We are very pleased with our fourth quarter results as we continue to see strong momentum in both our Drive Shack and American Golf businesses,” said President and Chief Executive Officer Hana Khouri. “In December, we successfully reopened our Orlando entertainment golf venue and launched an online platform for single-bay reservations across all of our entertainment golf venues, both of which continue to generate solid and encouraging sales results. Our revenue driving initiatives and continued expense control discipline contributed to the positive Adjusted EBITDA results of \$5.3 million this quarter, a \$7.4 million improvement compared to the same quarter last year. With the challenging year faced by many in 2020, the quick reaction by our team across the entire organization to adapt to the new environment and re-stabilize the business positioned us to advance our growth priorities through the year. I am incredibly proud of their hard work and relentless commitment to the continued success of our business.”

Khouri continued, “As we look ahead into 2021, our focus remains on strategic priorities to drive growth and profitability, including the launch and expansion of Puttery, capturing market share using data and analytics, growing brand awareness and advancing technology and innovation to remain at the forefront in our space. With our currently liquidity position and relatively unlevered balance sheet, we can maintain flexibility and optimize our capital structure to be better positioned to react to future business needs. We believe 2021 will be a momentous year for us that is carried by a team that sets us apart and will drive us forward.”

Business Update

The Company’s four entertainment Drive Shack golf venues, including Orlando which reopened on December 18, 2020, generated total revenue of \$7.2 million in the fourth quarter 2020, a decrease of \$5.7 million compared to the fourth quarter 2019. The decrease was primarily due to lower event revenue, which declined \$4.0 million compared to the same period last year and continues to be impacted by locally mandated capacity restrictions on large group gatherings.

The strong momentum and demand for traditional golf continued for American Golf throughout the fourth quarter of 2020. New full golf membership sales increased 20% and member rounds increased 37% on American Golf's five private courses compared to the fourth quarter 2019. During the same period, green and cart fee revenue increased 44% on American Golf's 30 public courses compared to the fourth quarter 2019, despite available tee times decreasing due to locally mandated restrictions. Overall, American Golf's traditional golf business generated total revenue of \$53.1 million in the fourth quarter 2020, which includes \$13.3 million of managed course expense reimbursements. American Golf's total revenue declined \$5.8 million compared to the fourth quarter 2019, largely due to event revenue, which decreased by approximately \$9.5 million during the same period.

Financial Liquidity Update

As of February 28, 2021, the Company had approximately \$86 million of unrestricted cash on hand compared to approximately \$44 million as of October 31, 2020. This increase is primarily due to approximately \$54 million in net cash proceeds from the follow-on common stock offering completed in February 2021. The Company continues to maintain strong capital allocation discipline and expense control across the organization.

Non-GAAP Financial Measure

Adjusted EBITDA is not a measurement of financial performance under generally accepted accounting principles in the United States ("GAAP") and should not be considered in isolation or as an alternative to GAAP financial measures. We believe this non-GAAP

financial measure, as we have defined it, provides a supplemental measure of financial performance of our current operations at our entertainment and traditional golf venues. This measure excludes items that we believe are unrelated to the day-to-day performance of our current golf entertainment or traditional golf venues, including one-time pre-opening costs associated with new venue openings, corporate severance payments, (gain) loss on lease terminations and impairment, stock-based compensation, depreciation and amortization and other income (which does not include revenue from golf entertainment or traditional golf venues). This non-GAAP financial measure is presented so that investors have the same type of financial data that management uses in evaluating the financial performance of the Company.

The principal limitation of this non-GAAP measure is that it excludes significant expenses and income that are required by GAAP to be recorded in our financial statements. A reconciliation is provided for the non-GAAP financial measure to our GAAP net income/(loss). Investors are encouraged to review the related GAAP financial measures and the reconciliation of the non-GAAP financial measure to our GAAP net income/(loss), and not to rely on any single financial measure to evaluate our business.

Adjusted EBITDA. We define Adjusted EBITDA as GAAP net income (loss), adjusted for income tax expenses, other income (loss), interest expenses, interest and investment income, depreciation and amortization, gain (loss) on lease terminations, impairment and other losses, pre-opening costs and certain other non-recurring items (including corporate severance payments, transactional G&A and stock-based compensation).
